 We are Canada's department store.

**1989 RATES**

Markham Hydro Electric Commission has announced an average 4.5% rate increase for 1989 which if approved by Ontario Hydro will take effect January 1st.

Ontario Hydro has increased the wholesale cost of power to Markham Hydro by 5.1% but careful budgeting and effective financial controls has permitted the Commission to absorb a portion of the overall increase. This is the seventh consecutive year the Commission has held the rate increase below the Ontario Hydro wholesale cost increase.

The increased rates are necessary to maintain the Utility's financial integrity and will be pro-rated on all customer bills after January 1, 1989.
