**Three hospitalized following crash**

An Aurora family was admitted to York County Hospital, Newmarket, following a two-vehicle crash Sunday at the intersection of Bloomington Road and McCowan Road, Whitchurch-Stouffville. Requiring treatment were Walter Meyer, wife Gail and son Cory, 15 weeks. Charged with failing to stop was truck driver Donald Ormerod of Pefferlaw.

**Editor's Mail**

**Human life an issue**

Dear Editor:

The three major political parties succeeded in making Free Trade, the main issue of the federal election.

Many stated this election was the most critical of the century in terms of determining the future of our nation.

They may have been right, but not because of free trade.

The issue of human life itself was a stake in the election. Yet it was given far less attention by the media.

At the same time, the political parties seemed to reach a common agreement to avoid the issue.

With no abortion law at all on the books, and none intended in the foreseeable future, it is clearly 'open season' on the unborn. Never before has the most basic of human rights, the right to life, been in such jeopardy.

Prime Minister Mulroney and his PCs promised to have a new

law on the books by last Easter. What a sick joke!

Our politicians continue to avoid the issue and keep putting it off indefinitely until the majority of Canadians have become comfortable with the callous butchery of tearing innocent babies to pieces.

What cowardice! What contempt for human dignity! What total injustice! What utter disrespect for life itself!

How could we elect to government those who would treat human life so casually?

Like Germany, before the second World War, we have become obsessed with our prosperity, drunk with our good fortune and blinded by the holocaust occurring within our own communities. We have allowed a small group of noisy, radical lobbyists to impose a particular secular world view into the power structures of our nation.

world view similar to that which brought Hitler to power and six million Jews to the concentration camps.

Human life is no longer sacred in Canada. It can and is being destroyed with impunity.

History could look at this election as the one that allowed the anti-life mentality to destroy the very essence of justice upon which our nation was founded.

What was at stake with the issue of the value of human life dwarfed that of free trade.

We must ensure that those politicians we elected are committed to protecting all human life, from the weakest to the strongest, or the freedom that we cherish so deeply will vanish.

All it takes for evil to triumph, is for good people to do nothing.

Sincerely,

Mel Middleton,  
Gormley
