

HAVE YOUR SAY

Do you think an airport should be built in Pickering?

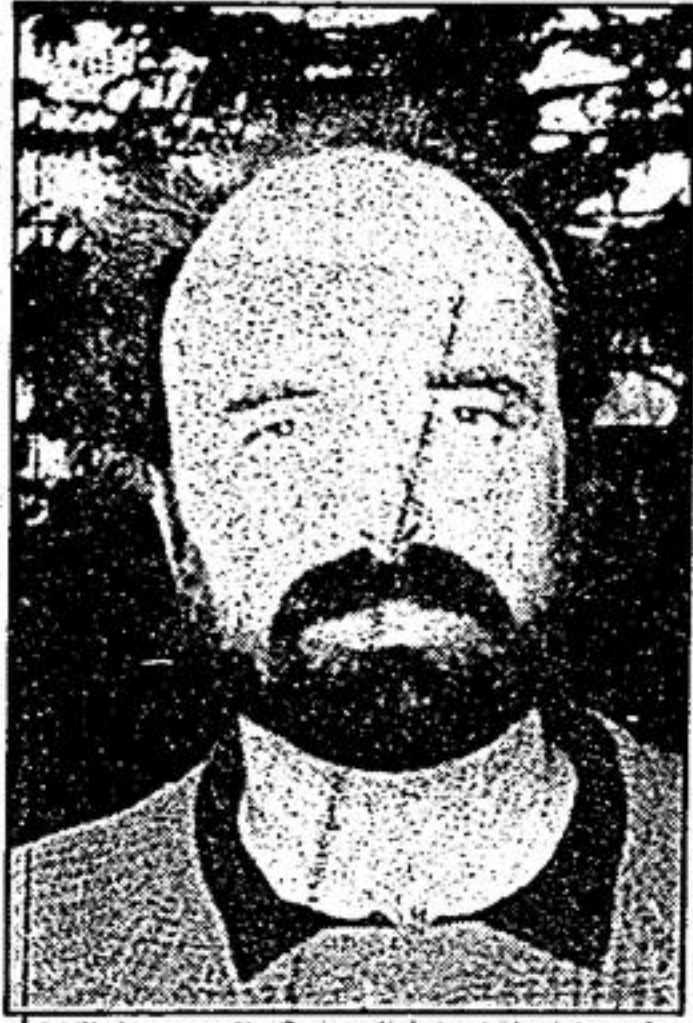

Albert Samarillo

Clarence Beelby

"I'm all for it. This town is full of young people, and the airport would provide good jobs for them. It will save them from having to go to Toronto to work. I think the airport would make the town of Claremont go."

"I don't really care either way, although I don't really think I'd want a bunch of planes going by all the time. It would be a lot of noise. But if it's going to go in, then I guess there's nothing we can do about it."

Bill Lennox

Robert Sheppard

"I think the whole thing is some kind of political ploy by the politicians. I think you'll see houses go in instead of an airport. If an airport does go in, though, I think it would be another Mirabel. I'd rather see houses than an airport. Where would you rather live, around 50,000 people, or somewhere where you've got 70 flights an hour going overhead?"

"It will come in time. It will be better for the region. Just look what happened to Mississauga after they put the airport out there. As for the Mount Hope expansion concept, do you think anyone is going to drive to Ancaster for a charter? There would seem to be no alternative to the Pickering site. Even for the residents of the area, it would be better. Property values would rise, and it will bring more services."

18 kt GOLD CULTURED PEARL EARRINGS
