

Lighting contract secured for Stouffville Community track project

The lights are on for the Stouffville Community Track and Outdoor Facility, and they'll be seeing double when the project is finished.

A lighting contract for the combination track and field/soccer/tennis complex is on the verge of being accepted by the project's advisory committee.

The arrangement would see lights installed on both the soccer pitch surrounded by the track, as well as the pitch immediately to the west.

Initial plans called only for lights to be installed on the track-enclosed pitch.

The lights have been eagerly anticipated by the Whitchurch-Stouffville Soccer Club for several years, with the town having earmarked funds for the project last year.

The lights have been eagerly anticipated by the Whitchurch-Stouffville Soccer Club for several years, with the town having earmarked funds for the project last year.

Soccer club representative Martin Johannesson approached local electrical contractors in recent weeks, and finally worked out a deal with Blenkhorn Electric.

Advisory Committee spokesman Ged Stonehouse is delighted with the deal.

"We are told the price will come in under our budget of \$129,000," he said. "And we're pleased that the presentation included specs done by Sylvania Lighting, and that the poles are maintenance free spun concrete. Add to that the fact we'll be able to light up both fields, and we couldn't be happier."

There are to be separate timed switches for both fields, with automatic curfew shut offs, added Stonehouse.

The town will cover \$109,000 of the cost, with the soccer club committed to paying \$20,000 towards the lighting.

Stonehouse said the committee hopes to have a similar proposal for grading and construction within the week.

"But the level of success with our ongoing fund raising will determine just how far we are able to go with the facility," he said. "We have \$344,000 so far from the (York Region) school

board, the town, the soccer club and local fund raising. We still need \$116,000."

Stonehouse said the committee is aiming to have the project completed by the end of August, and that there will be a massive fund raising drive aimed at big and small businesses, and service clubs, in town, as well as a door-to-door campaign.

Several local contractors have made commitments of machinery and services to help in the construction. The engineers for the project are James A Rice Construction of Gormley.
