Ready to perform

Dancers at the DanceCentre in Stouffville are ready for their performance tonight (Tuesday) at the Markham Theatre. More than 200 dancers will take the stage in the annual extravaganza.

When Canadians work together we can take on the world and win.

To succeed in today's world, Canadians must be able to compete because our jobs directly depend on it. Preparing ourselves through training will help us to compete and secure the prosperity we want for ourselves and our children.

We have to invest in ourselves and be a country that says... yes we can.

Yes we can. We've got the ability to build on our successes.

We have a history of working in co-operation with others for world-class achievements in peacekeeping, medicine and space exploration. Now, with business, labour, governments, academic and social groups working together, we can achieve prosperity through international competitiveness. But there is one more critical factor: Canada's ultimate potential depends on the commitment of individual Canadians to being the best.

"I had to make a decision to change careers. I chose to go into computer programming and part of my course was on-the-job training at BC Tel where I now work as a programmer analyst. Training really opened up a promising future for me in a fascinating industry!"

Yes we can. We've got the people.

It's time to focus our energies on our most important economic challenge yet... and prepare ourselves for a more prosperous future.

Yes, we can!

COREL SYSTEMS CORP., OTTAWA

This Ontario company has captured 50% of the world market with CorelDraw, a software graphics program for IBM and compatibles. It exports 90% of its products to Europe and the U.S. and attributes Free Trade to the fact that it can operate so successfully from Canada, using Canadian talent and initiative.

Yes we can. We've got the proof.

Canadians are succeeding every day. Many individual and business successes exist... with real benefits for individuals, the communities they live in and for Canadian industry.

Hundreds of Canadian companies are achieving remarkable international success. They're creating jobs, developing new skills and opportunities for thousands of Canadians and creating markets around the world for Canadian products.

The Prosperity Initiative's Steering Group is developing a consensus-based plan of action to be presented to Canadians in September. Canadians told us that they wanted to participate in developing this plan of action. We listened.

Through a series of "Community Talks", thousands of people in 186 communities across Canada have contributed their ideas. They talked about how to address the challenges and opportunities facing us all in the areas of competitiveness and learning. They talked about how to maintain our standard of living and secure our economic future. They concluded that all of us have to play a part... and the government is listening.
