 er she does."  
**Computer lab launched**  
 The Barbara Wideman Computer Laboratory at Orchard Park Public School takes deliv-

ery of its first 15 Unysis 386 computers this week. The lab is named after Barbara Wideman, a well-loved and long serving teacher at the school, who died suddenly two years ago. Grade 8 teacher John Sandham proposed the idea last year, and funds were raised by the Orchard Park Home and School Association, which has so far raised a total of approximately \$26,000 for the project through such activities as Christmas gift wrap sales and the annual Christmas Craft Sale, as well as donations from the community. An official opening of the lab is planned for Education Week next May. Eventually, the Home and School hopes to place a total of 25 computers in the school.

**A Christmas treat**  
 Christ Church Anglican was filled to capacity last Sunday as young members of the church performed their Christmas musical, Arch The Angel.

The musical tells of Archibald E. Angel's reluctance to become a Christmas angel, and how he is eventually talked around by his friends.

"It was fun to do, the music was great, and the kids learned a lot about life from it," said Angela Cumbers, one of the organizers. The cast ranged from pre-schoolers to Grade 7s, and the children won a standing ovation for their performance.
