Reckless driver poses threat to residents

Dear Editor,

My wife and I witnessed a frightening incident of reckless driving Saturday (July 3). While out for an evening walk at dusk, we observed two vehicles accelerate at a high rate of speed from Main St. and head north on Stouffer through a four-way stop intersection and then continue to accelerate for as far as

we could see along Millard.

This episode lasted only a few seconds as they flew through the intersection (four-way stop), on the wrong side of the road, and passed two vehicles that were coming to a stop.

This incident was witnessed by several pedestrians.

Unfortunately we could not see a licence number but the

first vehicle was a blue corvette with two occupants and the second an older station wagon with three occupants.

I suppose the drivers thought this to be great excitement! I hope they read this or someone who knows who they are lets them know that continued driving like that will very quickly lead to

tragedy for them and possibly other innocent people.

To you the drivers: we in Stouffville will not tolerate such dangerous behavior and

will not turn a blind eye.

You will be identified and reported.
