Library offers tips for interesting Ontario vacations

Have you been to Stonehenge? No, not England. The Stonehenge in Ontario. North of Manitoulin Island there is an "unusual aggregation of 18 huge boulders." There seems to be some question as to whether the boulders were simply left behind after the glaciers or not. Yet there's the added mystery in that the boulders are aligned to match the sunrise and sunset on the summer and winter solstices. Of course, there's some interesting sights to

see in our own area. How about the 'Dune That Ate a Town', near the Sand Banks Provincial Park. The Peterborough Petroglyphs. The Big Chute Marine Railway - now there's an intriguing notion. What about a Ghost Town! Then Parry Sound is one of the best places to go. This may be the best time of year to visit - it doesn't get dark until quite late - but the book suggests that early Spring and late Fall are the best times. This is because the absence of vegetation

at these times allows for better visibility. What book, you ask? Ron Brown's 50 Unusual Things to see in Ontario. It's a wonderful source to plan for an interesting Summer vacation. In this economy, we

might not be able to go far, but it still doesn't have to be boring. Check out these books from the Whitchurch-Stouffville Public Library. Donna Gibbs Carpenter. Daytripper: 250 trips in and

around Toronto. Nancy Gibson and John Whitaker. The Lone Pine Picnic Guide to Ontario. The Cottage Rental Directory. The Ontario Bed & Breakfast Book.
