

Plenty of research material available for eager students

There is definitely a back to school atmosphere at the library these days.

Suddenly, the books on whales and dolphins are being asked for. Gee, some of these young students are really getting a head start! Still, some of you may not realize that we have some less visible resources at the library.

We have a number of magazines which are great sources for current events and science

LIBRARY NEWS

projects. To make life really easy, we also have an index to these magazines. Another wonderful source for material not in book form is the vertical file, which has brochures on subjects ranging from wildlife to consumer information.

So if you wish to begin researching a little early, certainly, the Public Library is a good place to start.

Now that the school children

have settled into a routine, you may want to look into the library programs for children aged 3-5. We offer a storytime program and a music program. Registration has begun, but

there is still space available in both. Please drop in to sign up. Payment is made upon registration. The reading program is \$30 and the music program is \$40.

4-H courses coming up

The 4-H youth organization will hold orientation for new leaders on Wednesday, Sept. 15 and a leadership training session will be held on Tuesday, Sept. 21.

Both of these sessions will be held at 7 p.m. at the Ontario

Ministry of Agriculture and Food boardroom in Newmarket.

For further information about 4-H clubs in York Region and to register for the workshops, contact Kathy Simpson 895-4519 or 1-800-263-3241.
