

Fall is here...time to check your furnace

For safety, comfort and peace of mind, people should have their furnaces checked annually, advises Mark Cussion of M.J. Cussion Gas Services.

"I've been active in Stouffville in the heating and air conditioning business for four years and previously worked for a local company which was affiliated with Consumers Gas," explained Cussion.

"I offer a complete service for heating, air conditioning, humidifiers, air filters, fireplaces and piping. I've been living in Stouffville for seven years."

Air freshening
Cussion also operates Central Scenting Systems, which installs unique air freshening systems for the entire home. "At this

time of year, I highly recommend that people have their furnaces checked out by a qualified service person," he noted.

Yearly checkup
"For safety and efficiency, they require a yearly checkup, especially in older homes with older furnaces." Cussion strives to offer personal service at very competitive rates.

"What I'm trying to do is bring back the old days. I don't just go in, do the job, take the money and run. If my customers have any concerns I'm there to answer

them."

Service calls in Stouffville and surrounding areas are free of charge and Cussion bills only for the work he does. "My prices are very reasonable and when someone calls, they're guaranteed to get me every time, because I'm the only employee of the company."

Investing a small amount of money on a service call every year makes a lot of financial sense, he pointed out. "People leave it and then I have tell them on a night when it's 20 below that the furnace has to be replaced."

M.J. Cussion Gas Services is fully insured and licensed. For more information or to make an appointment call 642-4926.
