The indicated rates of return are historical annual compounded returns for the period ended October 31, 1993, including changes in unit values and reinvestment of all distributions and does not take into account sales, redemptions or optional charges payable by an investor which would have reduced returns. Past performance is not necessarily indicative of future returns. Important information about Elliott & Page mutual funds is contained in the fund's simplified prospectus. Please call to request your copy and read it carefully before investing.
