SO WHO DOES YOUR COLOUR?

At Svengali we believe the reason for our success is the high standards we demand of ourselves both technically and artistically.

SO LET'S TALK COLOUR

Our colour technicians, April and Susan have extensive training which enables them to offer the colour technique best suited to you. From overall colour to foil highlighting using various shades or a colour enhancing glaze to add richness and shine are a few options to consider. Consultations for colour correction are another service we are pleased to offer.

Artistry is certainly a major component in our cutting department but not artistic temperament. Our renowned stylists and technicians combine their talents to achieve consistently good work that will leave you feeling confident about your look.
