

Eagle Summit sedan a pleasure to drive in any traffic

(From page 11)

Dodge Colt. Built in Japan by

Mitsubishi for Chrysler. I was attracted by price (yes there I go again) because it had air and power accessories in the

under \$15,000 bracket.

But what really amazed me was how handy and zippy the car was on the highway. When I go to Shannonville, I don't test drive on the track because it proves nothing about how the car responds for you and I in the real world of two-lane traffic.

For 1993, the Summit has been completely reworked and remains on a par in terms of size, performance and concept with Corolla/Civic/Sentra its major competitors in the Japanese home market. Styling is neither radical nor outdated. It has euro-induced lines following the current Japanese vogue of trying to round out every spot that was once sharply creased in the days of wedge styling.

Step into the ES and you get a

1.8-litre, 16-valve four with 113 hp and 116 torques. Transaxle choices are a five-speed manual or a four-speed overdrive automatic as an option. The 1.8 engine is available as an option on the DL.

This is Canada with 100 km/h superhighways and I think the 1.8-litre should be made standard just to keep up to the flow of traffic.

The first thing you notice is how fast the engine climbs the rev counter and how quick you're suddenly going.

The car is a delight in any type of traffic. It's quick enough to edge out the guy in the 350-cubic-inch beater who's trying to cut you off, yet easy enough on fuel to require only two fillups during the time I had it.

Trunk space is big enough for the playpen and folded stroller, but not much else.

Price, this is the best part. The coupe base and ES list at \$9,805 and \$10,250 respectively; while the sedan base and ES are \$12,355 and \$13,305. My four-door ES with a host of options like air conditioning came to \$15,439.

The Eagle Summit may not be the first name that pops into your mind when you think small, imported economy car, but it sure is worth taking a look at.

The Eagle Summit is available at Markham Jeep Eagle.
