Rachel Perry's Natural Skin Care System

I invite you to experience and enjoy a very exceptional line of pH Balanced NATURAL skin care products. My formulations consist of the most beneficial natural ingredients used throughout history—Plants, Herbs, Vitamins and Natural Vegetable Colors—in combination with the newest discoveries from Biochemical Research. I have also included the use of AROMATHERAPY and COLOR THERAPY throughout the line to further enhance the function and benefits of all the products. These products are serious but fun and have been designed for both men and women.

Most of Our Clients Think We're #1. We're Actually #7.

With almost \$10 billion in assets and more than two hundred branches, Laurentian Bank of Canada is the seventh largest domestic bank in Canada. And we're growing.

Our recent acquisition of General Trust means we now

offer a full array of banking services to even more clients than before. And that's good news. Because we can offer our clients the stability and security they deserve. After all, we may be #7, but our clients are #1.
