Announcements

*"If your dream is to make your children's lives even better than yours ... I can help make it happen."*

A better life and a better world starts with a higher education!  
 As part of University Scholarships of Canada my only job is to make a higher education affordable for your children through our highly respected Registered Education Savings Plan. The USC Plan assures you of a high rate of return on your savings, which are tax sheltered.

Shabana Leca

personal approach to match your exact needs and budget. I want to eliminate your worries about the future, which is why a three part team effort is emphasized: (1) you, (2) your children and (3) USC, can build the dream together. You're never alone because you have a large, respected foundation with 28 years of RESP experience and know-how on your side.

Not All RESP Plans Are The Same!

I don't market mutual funds or unrelated insurance policies because my only job is to offer Canadian children the opportunity to fund their higher education. A real difference in RESP Plans is the people marketing and administering the plan and their objectives.

**I Make House Calls**  
 When it comes to your children's future, I'm happy to make house calls. Of course, there is never any cost, pressure or obligation. Let me share in the responsibility of offering your children the brightest possible future. It's my only job.
