

## MARKHAM TRANSPORTATION PLANNING STUDY

### Information Notice

The Town of Markham is undertaking a transportation planning study to identify future transportation needs and priorities for the Town in response to the Town of Markham Urban Expansion Study, which established the Town's urban limits to the year 2011 and development options to the year 2021. The study will examine and make recommendations on public transit improvements, new roads, road widening, and other transportation issues.

To obtain public input, the Town and study consultant will be meeting with local ratepayers' associations and business groups at regular intervals in the study. The first group of meetings will be held on June 15, 1993. If you would like to provide input to the study at this stage, please contact your local ratepayers' association, or submit your comments in writing to:

Mr. Alan Brown,  
 Director of Engineering  
 Town of Markham  
 101 Town Centre Boulevard  
 Markham, Ontario  
 L3R 9W3

A public information meeting will be held in October of 1993 to present the study's draft findings. At that time, a notice will be posted to advise of the meeting. Information regarding the study can also be obtained by calling Mr. Alvaro Almuina, P.Eng., Town of Markham - Engineering Department at 477-7000 extension 286.
