On The Cutting Edge of landscaping

No job is too big, or too small for The Cutting Edge, according to owner Nick Zielonko. In business for eight years, The Cutting Edge specializes in property maintenance and landscaping. From lawn mowing to a complete landscaping project, Zielonko has the means to do the job - and do it well.

"There are a lot of fly-by-night companies out there," he said. "Anybody with a truck and a wheelbarrow can call themselves a landscaping company." He should know. He spends a lot of time maintaining and/or repairing jobs done by other companies who close down after one season, or do the job incorrectly

in the first place. Located in Unit #29 at 172 Bullock Dr. in Markham, The Cutting Edge is equipped to handle just about anything with back hoes, loaders, excavators and bobcats.

Together with the machinery, of course, goes a great deal of knowledge about the business. Zielonko said that many people lose their valuable landscaping by making costly mistakes with pruning - either too much, too little or at the wrong time of the year. Paying to have it done properly may mean saving in the long run.

He cautions people to shop around before settling on a landscaper. "You get what you pay for" he said. He suggests getting a warranty on any work done.

"Make sure it's a reputable company," he said. "Get references."

Just last week, he redid a job that he quoted on last year, but lost to a competitor. This year he had to replace the soil brought in last year with fresh sterilized dirt because of the weed problem.

Zielonko says that nine times out of 10, when he landscapes a property, he also maintains it.

"I sure don't want to be pulling out weeds all the time," he said.
