Card plans big changes for his store

Major change, including an expansion, is slated for one of Stouffville's major retail businesses.

Pending municipal zoning approval, Card's Home Hardware will be replaced by a Chrysler dealership, an appliance store and a kitchen cup-

board and cabinet retail outlet, business owner Graydon Card reported this week.

Not only will Card continue to sell appliances, he plans to expand this part of his property on the west side from 1,200 square feet to 2,500

square feet. "We've always done quite a business in appliances," Card said.

The businessman said he's interested in all aspects of the change, including offering the kitchen cupboard and cabinet segment.

The plan calls for an existing greeting card shop to relocate to Uxbridge. Meanwhile, Card will take over the space left vacant when the card shop moves.

Card expects the change, including the expansion will be under way soon. Completion is targeted for the spring, said Card.

"Everything hasn't been finalized. We're putting things in place," he said.

Card has been in business on Main Street for 27 years. He's a past president of the Whitchurch-Stouffville Chamber of Commerce and past president of the Canadian Retail Hardware Association.
