Summer employment strategies at library May 23

How do I find a job? That's the anxious question hundreds of high school and post-secondary students are asking as they prepare to search for summer employ-

ment. Our library, in conjunction with the Canada Employment Centre, hopes to provide some help to the searchers through a job

strategy workshop which will be held in the library Tuesday, May 23 at 7 p.m.

The workshop is not only aimed at students looking for summer employment but at anyone entering the job market.

It will provide information and assistance on skill self-assessment, job search techniques, preparation of resume and cover letter, interviews and job market trends.

Participants may want to bring a copy of a recent resume along to the seminar to help identify areas of improvement.

Further information on the workshop is available through the Markham CEC office 477-3066.

Newly arrived from jobsOntario is the 1995 Approved Project and Employer List as well as the handbook Guide to Summer Jobs which specifies what programs are available, who is eligible to

apply and how to make applications.

We are extremely excited about a Job Bank Info Centre which is about to be located in our library.

The kiosk is already in the lobby awaiting its computerized innards.

When hooked up to Canada Employment's mainframe, it will be able to provide information on job openings in the local, surrounding and Canadian labor market and issue bulletins on job training opportunities.

Job Bank will also provide service information on such programs as the Canada Pension Plan, Old Age Security, Benefit, Child Tax Credit and Language Training for Newcomers to Canada.

This new bank in town is expected to be a great boon to anyone in this area who is interested in accessing the job market.

Carrier BRIDLEWOOD Carrier

HEATING & AIR CONDITIONING SOLUTIONS

The bad taste of a poor installation usually lasts long after the momentary excitement of a low priced BARGAIN purchase.

Poor means noisy, not working and no service.

Low prices sale means you bought the price not the product or the service. Instead of falling into this trap why not call Bridlewood Heating and Air Conditioning and find out all the facts.

Discounted priced furnaces and air conditioners are usually made to suit the price.

High Efficient units are the ones that replace those first units. More efficient. No breakdowns.

Freonless units (Ozone Friendly) are ahead of their time. Why not save yourself future pain. Leaking units will mean replacement units.

If you must buy the best price buy Bridlewood, because we will still guarantee them.

If you want low Hydro Bills buy Bridlewood, because we have those units.

If you want to protect the environment call Bridlewood, because we have freonless air conditioners. The first of all future units.

Our furnaces are just as selective. Mid-Efficiency and High-Efficiency can be discounted and built for price. Our units are deluxe high efficiency and super high efficiency for our second time customers.

Calling Bridlewood means you can buy any model. Low Price complemented by our guarantee. Higher Price adds more reliability, more efficiency and less service problems in later years.

Calling us means you get the best information and with the best information you will make the best choice for you.

We have 100% financing. Discount for cash.

Everyone Reads...

The Tribune

640-2100 Stouffville

852-9741 Uxbridge

* Kubas Consultants independent survey.

That's how many adults read The Tribune across the entire coverage area of 16,000 homes in a given week.

That's more than any other newspaper.

If you are a business person, can you afford to be missing that kind of advertising clout?

We are first with area news, sports, arts and entertainment. We have two issues per week, not just one, so we have all the information vital to readers of this area first. When readers want to know, they turn to us.

It's a fact.
