

80%*

That's how many adults read The Tribune across the entire coverage area of 16,000 homes in a given week.

That's more than any other newspaper.

If you are a business person, can you afford to be missing that kind of advertising clout?

We are first with area news, sports, arts and entertainment. We have two issues per week, not just one, so we have all the information vital to readers of this area first. When readers want to know, they turn to us.

It's a fact.

Call your sales representative today.
