Learn basics for safe diving

Diving is a sport that almost everyone can enjoy. Avoid serious injuries by learning the basic rules for safe diving.

- Don't dive into an above ground pool or the shallow end of an inground pool.
- Don't dive off the side of a diving board - dive straight ahead.
- Don't run and dive - it gives you the same impact as a dive from a board.
- Don't dive from rooftops, balconies, ledges, fences or trees.
- Don't dive from ladders, slides or other pool equipment.
- Don't try fancy dives or dives with straight vertical entry.
- Don't put diving equipment on a pool that wasn't designed for it.
- Don't swim or dive alone.
- Don't drink and dive.
- Do dive with your head up, arms up and extended and steer with your hands.

For tips on knowing how to dive, contact: The NSPI of Canada, 7370 Bramalea Rd., Unit 5, Mississauga, Ontario L5S 1N6 or call toll free 1-800-323-3996.
