Leave recreation legacy, not empty office space: Reader

Dear Editor,

People attending council on Feb. 11, 1997 were again treated to another rendition of "build me a town hall," by councillor Margot Marshall. "The money is there!", she exclaims, "it's all in the reserve fund, we have been saving it for years."

Let's look at this whole scenario. Mayor Emmerson, Councillors Marshall, Scala, Kostandoff and Dunkeld will sooner or later approve the construction of this monument to themselves and posterity. Please note it's all built with tax payers money.

Mike Harris and the GTA group then show up and put the above actors out of work. Bottom line being we are sitting with another vacant building in Stouffville and the above mentioned group becomes the new opening act at the New Town Hall Theater.

Councillor Marshall seems to like throwing her opinions out when she is protected by the guidelines imposed during the council meetings, when the people in attendance are forced to become the victims of her verbal barbs and are not allowed to return comment.

Hopefully her constituents in Ward 3 will make the proper decisions when it comes election times, "if it isn't too late by then."

Needless to say Whitchurch-Stouffville will become the laughing stock of all municipalities in Ontario. While other municipalities are downsizing the elements of bureaucracy, Stouffville will become a leader in the expansion of these facilities. We can refer to it as "Governmental Economic Development".

So why not build us a legacy of recreation of this community instead of empty offices on top of the library. Do we not have enough

empty office space already?

Pete Sherban, Stouffville
