

Playgrounds in winter can pose threat to children

With March break wrapping up this weekend, it's not too late to be reminded of an important statistic. Health Canada reported that 10 children in Canada died between 1982 and 1995 as a result of their clothing or draw strings becoming caught on playground equipment or fences.

In the winter, parents and caregivers are reminded to be aware of potential hazards from children's clothing and playground equipment.

To prevent children from being strangled by the draw string in their hood, it is recommended to remove the string.

Furthermore, closely supervise children in the backyard or in the park to prevent scarves and mit-

ten cords from becoming a danger to them.

Ropes and skipping ropes should never be tied to playground equipment.

Parents need to teach their children to play safely and use the playground equipment appropriately.

John Paloc

wants to be your

Reform Party Candidate for a Fresh Start in Markham

Accountability and integrity are important issues in Markham. Only REFORM has a plan that will allow you to recall your MP

John Paloc can, and will abide by such a rule even if parliament won't.

As a tax accountant, John is keenly aware of how severely we are being overtaxed. John Paloc will work to roll back the 71 tax increases put in place by the Tories and the 35 tax increases put in since 1993 by the Liberals plus the \$10 Billion tax grab from the CPP premium increase.

John's priority is a fair break for students and seniors. Support a taxbuster by supporting John.

Yes, I want to help John get nominated.
