## Leger figures well in Markham

Amanda Leger of the Stouffville Figure Skating Club put the finishing touches on her Gold Dances when she was successful in Westminster during a test day held Feb. 21 in Markham.

Leger was one of five successful Stouffville club skaters at the

test day.

Jessica Wilcock passed both Starlight and Kilian in the Senior Silver dance. Also in Senior Silver dance, Bonnie Thompson passed Paso, Sara Pickering was successful in Kilian, and Stephanie McLeod passed Blues.

### DON VALLEY NORTH LEXUS - TOYOTA ATHLETE OF THE WEEK

#### KATIE McDONALD

Katie McDonald was in rhythm when she took to the floor at the recent Canadian Elite Rhythmic Gymnastics competition in Winnipeg.

The 14-year-old Markham resident who toils with Club Ritmika, was part of a five-member senior group that finished first overall based on their first-place efforts in their two routines consisting of ball and ribbon and ball. A student at Unionville High School, McDonald will also be touring with Club Ritmika at a couple of international competitions including one in France during the current March break and the Four Continents competition in Sydney, Australia this June.

## Mites rally for victory

Michael Del Zotto broke loose for five goals to lead the E.M.S. Carpet mite selects to a come-from-behind 6-4 win over Victoria Village in a recent North York Hockey League match.

The win came on the heels of the Stouffville squad's 7-0 win over Chinguacousy, which saw Jeff Kavluk net a quartet of markers to back up Christopher Lombardo's goalkeeping.

Del Zotto added another three goals to help his team improve its season record to five wins, a loss and a tie.

Kavluk had the other Stouffville goal against Victoria Village.

### TransCanada PipeLines Limited Public Notice of Facilities Application Maple (Station 130)

To keep pace with growing customer demand for natural gas, TransCanada periodically increases its mainline natural gas transmission capacity. This can be accomplished by constructing new pipeline facilities and/or compression facilities on our mainline transmission system. We are currently considering constructing additional facilities in your area in 1998 or later. The map above indicates the general location of the proposed expansion under consideration in your area.

TransCanada will be applying to the National Energy Board (NEB) to obtain approval for some or all of the facilities noted in the above map. As part of our application to the NEB, we will be conducting comprehensive environmental and socio-economic assessments for the proposed construction. To ensure community concerns are identified and addressed by both TransCanada and the NEB, we are seeking comments from members of the public on the potential environmental and socio-economic impacts of the proposed construction.

The NEB Information Bulletins 1,2,3, and 4, which describe the pipeline route approval process and how landowners and members of the public can participate in this process and TransCanada's Environmental Management Handbook (1995) have been distributed to the clerks of the municipalities in which the proposed construction is located. We will also be forwarding a copy of the environmental and socio-economic assessment report for the facilities under consideration in your area to local municipal offices when it is completed. If you are interested in reviewing any of this information, please contact the municipal clerk in the area where the construction is being proposed.

These additional facilities will not result in direct residential gas service from TransCanada. TransCanada is a natural gas transmission company that transports natural gas from western Canada to markets in Canada and the United States. If you are interested in receiving residential service, please contact your local distribution company.

TransCanada is committed to consulting with members of the community and views your comments as a valuable component of the planning phase. If you have any comments or questions regarding the proposed facilities, the approval process, TransCanada's right-of-way policies, or any environmental and socio-economic issues, please contact:

## The Family-Friendly Summer Camps

# YMCA SUMMER CAMPS

Whether it is for two weeks or two months, YMCA Summer Camps are the perfect choice for your children. YMCA Summer Camps mean growth and learning for all children, with lots of exciting choices each day. Our counsellors care about children and help every camper express individual talents in arts, sports, and many other activities. YMCA Summer Camps mean new friends, fun, and exciting experiences for everyone.

For parents, YMCA Summer Camps mean peace of mind - knowing that their children are being cared for by the people who know children best: YMCA Children's Services. At YMCA Summer Camps, we take children seriously, helping them grow in spirit, mind, and body.

Register by March 31 and
