

SURF THE NET AT THE SPEED OF LIGHT.

New wireless technology gives you instant Internet downloads 400 times faster than your present delivery system. SelectView Wireless Corp. provides high speed wireless Internet delivery. The system uses digital wireless technology that gives anyone, on any system access to **text, audio and video at 10 mbits per second**. No more frustration, no more waiting for long Internet downloads.

It's easy and inexpensive to subscribe and install.

Call SelectView and we'll install a small antenna and modem at your home or office. Then simply connect to

your local Internet Service Provider and once on-line request web information exactly the same way you do now. SelectView delivers response via high-speed, digital wireless technology. SelectView Internet service is now available in Metro Toronto and surrounding area.

Contact SelectView or your Internet Service Provider for rates. SelectView high-speed Internet delivery service is available today. Don't waste another second downloading web information. Don't wait another second to subscribe. Call 1.888.821.4606 or your Internet Service Provider.
