

# Courteous drivers just ducky

Dear Editor,  
Let Jemima and Jeremy cross the road safely.

In these early spring days, it is with dismay and disappointment that I observe the daily driving habits of many of our none too distant neighbours - speeding through our small hamlet as though it were a highway.

Spring is indeed in the air and for the past month, the pairing of ducks and geese has again brought Lemonville to life.

What a pity that daily commuters do not (at this time at least) keep to the speed limit.

This past week, the mallards are taking it in turns to sit on the eggs and many previously inseparable pairs are seen waddling around singly searching for food.

We have a pair that regularly cross the road to feed from seed dropped from our bird feeder. My heart is in my mouth as I watch them saunter purposely from the pond opposite, to our lawn.

Would you believe a woman actually shouted at them when she was forced to stop her car?

In these days of urban take over, surely, the quaintness our little community provides is a welcome respite from the hustle and bustle of daily living. Please, please slow down. It is heart breaking to see one of our feathered friends dead on the side of the road.

I know we have deadlines and appointments to keep, but, please, as you drive through Lemonville or similar neighbouring communities take the time to observe the wonders of nature.

It will not be long before these pairs are parading their new-born behind them.

What a joy it is for us to be part of such a display of nature.

Your children will love to see the proud families - after all, isn't that why we moved
