Region sets up no-smoking web site

HEALTH

Ontario's Chief Medical Officer of Health Dr. Richard Schabas states that, "Smoking is Ontario's most important public health hazard."

He urges people to support World No Tobacco Day which is slated for Saturday, May 31.

Tobacco kills about 12,000 Ontarians each year, accounting for about one in six deaths in the province, he reports.

Partners in Action is a group which is aimed at diffusing youth tobacco, alcohol and drug use.

The group stresses putting prevention/reduction resources into the York Region School system. The majority of smokers begin before the age of 19, with approximately 3,000 Ontario youth entering the tobacco market each month.

Partners in Action members include The York Region Board of Education, Heart Action York Region, Addiction Research Foundation and York Region Health Services Public Health.

To recognize World No Tobacco Day, York Region Health Services is launching its new web site "Stop Smoking Support Page", to help people who are still smoking and want to make changes sometime in their future.

The council invites all smokers to visit the web site at <http://www.region.york.on.ca>.
