Let the wisdom
and inspiration of

MAHAGURU YOGI ARKA

bring deeper experiences
of love, creativity and
consciousness

Mahaguru Yogi Arka is an evolutionary spiritual inspirer who travels the world teaching people how to elevate their inner consciousness and achieve balance in their busy lives.

He does this by sharing profound messages about the meaning of life, and by guiding people in a highly personal experience called Dhyana - which is a spiritual journey from the mind to the heart. Dhyana is the mother of meditation and the key to self-discovery.

An accomplished author and scholar, Mahaguru has founded study circles around the world and has helped tens of thousands of people of all ages, backgrounds, races and religions through his teachings.

Some seek peace of mind or the inner strength to fight an illness; others the courage and vision to achieve their goals in life. Some come to reflect on their nature and self-potential or to find truth. Most return, for Mahaguru offers unconditional love and wisdom, respect for freedom of thought and beliefs, and the encouragement to grow and blossom as individuals.

It is a rare opportunity to meet him at one of three open-audience sessions being held in Toronto this June. One evening could change the rest of your life.
