# Strands International

Strands International has moved to a bigger location on Hwy. 7.

## Sebastian International Image Centre is now open in Markham

Strands International - a hair salon that offers excellent customer service and high quality work - has moved.

"We outgrew (the old salon)," said artistic director Aldo Scopazzi, who operates the salon with his wife Linda.

The newer location still offers the same services that has kept clients coming back, but will now include the additional services of two other stylists, an esthetician and a makeup artist (coming this Christmas).

The staff that work at the two-storey salon are always upgrading their skills at Sebastian's 'Academy'.

pany that distributes high quality hair care products and trains hair stylists to meet their high standards. A standard which makes Strands an unique place to visit.

Everyone who comes to the salon must have a consultation. "During the consultation we discuss the client's hair texture, face shape and lifestyle."

Then using a wide variety of influences, the stylist and client chooses a hair style that best suits the client's needs.

# World wide whenever.

wave

With WAVE, you're always logged-on. Always wired. Always hooked-up. Never again wait through the beeps and fooshushes of dialing-up on a telephone line. Simply click the WAVE icon and surf at full throttle.

It's all because WAVE connects your computer through high-capacity cable instead of a skinny little telephone line.

Now you have the power to stay on-line at all times and turbo-surf whenever you get the urge. Plus, your telephone lines are always clear so you can call your friends and brag while you surf. What will you boast about?

How's this: WAVE gives you unlimited access so you'll never again exceed your allotted on-line time.

It gets better. WAVE's constant connection lets you make the most of Push technology. That's how you get all the stuff you're interested in to automatically come to you.

But the real rush is in its simplicity. WAVE comes through the same cable you're already using to receive Shaw television services. That's neat because you don't have to pay for a special telephone line or number for your computer.

Why wait when you really want to surf?
