Key to healthy marriage includes communication

■ From page 9 ■
emotional and medical crises often destroy, not strengthen, a marriage.

• Even happily married couples have dips, or periods of doubt, after

five to seven years.
• Men tend to be less happy in their marriages after retirement, especially if their wives work.
• Keys to a healthy marriage include communication between spouses, building a problem-solving framework within the relationship and acting early to resolve problems.

The word 'honeymoon' originated from a German and French custom
The word Honeymoon originated from an old German and French custom in which brides and grooms drank mead - a honey-sweetened wine - every day from one full moon to the next during the celebration following the wedding.
Another legend holds that when brides were "captured," the honey moon was a time to hide from her family until tempers cooled; it also gave the bride a chance to get used to her new situation. Today the honeymoon is still considered a time for adjustment to married life and a time to enjoy the sweetness of newfound love.

TERESA NUCCI HAIRSTYLING

To those who know me, but to those who don't, let me introduce myself. My name is Teresa Nucci. In the nine years that I've been a hairstylist, I've worked for well known salons. One being Hair Fashion 2000 at Bayview and the other location in Markham. I've worked for Fame International for two years. I have now opened my own salon located in my home. A fully equipped, bright and airy room with a separate entrance. I specialize in waxing, body massage, facials, manicures, paraffin treatments, pedicures and hair services.
