FactoryCarpet - Satisfying you is what we do best

For 26 years, Factory Carpet has provided warmth and comfort to thousands of area homes. Factory Carpet's longevity is a direct result of the "white glove" service given to all their customers. "Customer satisfaction is our policy," says Nasser Ghotb, vice-president of operations for the Factory Carpet chain in Canada. "The success of our company is based on its reputation and strong customer base. We believe the customer is always right, and we go out of our way to try to please them."

Factory Carpet is a full-service floor covering retailer, specializing in the large selection of carpets, vinyl flooring, area rugs, hardwood, and laminate flooring. The company's buying power ensures a very large selection in inventory and low pricing. They provide a full guarantee on all their products for workmanship and product quality.

Factory Carpet always keeps up with the latest trends, and they've noted that lately sales of area rugs have been increasing steadily. "Area rugs are becoming very popular and we are proud to offer the largest selection of area rugs in the area - at excellent prices."

Factory Carpet believes that success in a service company depends on professionalism and satisfying customers - not just on price. "Pricing should not be the only decision-making factor for a customer in this day and age," says Mr. Ghotb. "Our trained floor covering consultants can give you the right product for the right use at the right price, and the company guarantees your total satisfaction."

"Our consultants are very professional and take pride in what they do. They have extensive experience in the floor covering industry. We believe in customer service, repeat customers and referrals. That's how we've built our company."
