

## Be Hauntingly Safe This Halloween

This year when your child goes trick-or-treating, be sure to practice these safety precautions. A safer Halloween will be more enjoyable for everyone.

**1.** Your child should wear reflective strips to make sure they are seen by oncoming traffic.

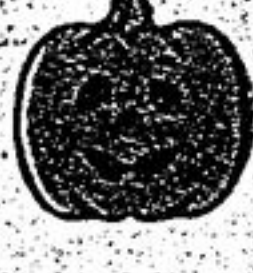

**2.** Make sure that your child's vision is not obstructed by a mask.

**3.** Make sure that your child is able to walk freely without obstruction from a costume.

**4.** An adult should be present when a child is trick-or-treating.

**5.** Only take your child to the homes of neighbors you know well.

**6.** Examine your child's candy. It's a good idea to take it to a local examining station.

**7.** Trick-or-treat early. Do not allow your child to trick-or-treat in the late hours of the night.

**8.** Only allow your child to walk on designated sidewalks and walkways.

**9.** Hand out healthier Halloween snacks for the visiting trick-or-treaters.

**10.** A safe alternative is to have a Halloween party for your child and a group of his or her friends.
