SELL

The Used Computer Store carries brand name pre-owned computer technology. You'll find a wide selection of brand name products. We carry Desktops, Laptops, Printers, and Monitors. All products come with a 90 day warranty.

BUY

Old equipment sitting in the basement or attic just gathering dust? Don't pitch it out! It's worth cash to you! At The Used Computer Store we pay cash for your computers. We buy Desktops, Laptops, Monitors, and Printers. You can also put the value of your old equipment towards a trade-in. We require a 24 hour testing period. All sellers must provide valid ID, be over 18yrs. old, or be accompanied by an adult. Call us for an estimate.

REPAIR

Each store has a fully equipped service department. The knowledgeable and friendly technicians will answer all your questions, make recommendations, and complete repairs within 48 hours. With our own delivery van, we'll even pick-up and deliver your computer right to your front door or place of business. Most repairs are done in house, and often completed same day.

UPGRADE

Our stores carry a broad selection of peripherals to enhance your computer's performance. Often a simple and inexpensive upgrade can satisfy your changing computing needs. We carry motherboards, RAM, Hard Drives, CPUs, as well as new and used CD-ROMs, modems and monitors. Not only do we have low prices, but how many other computer stores will offer you a trade-in on your older parts? The savings can be enormous.

LEASE

We now offer leasing to credit approved customers. Lease for 2, 3 or 5 years, on a lease to own basis. Leasing is a great alternative. It allows you to keep abreast of changing computer technology, without spending a bundle! Call today for information on how you can lease a computer for as low as \$1.50 per day!

WHY BUY NEW?

**COMPAQ PENTIUM 60
DESKPRO XE 560**

When it comes to computers, Compaq is the single largest manufacturer of computers in the world. If you value the dependability and quality of a premium system, then we recommend you to take a look at upgrading to Pentium speed without breaking the bank or entering the questionable clone market. We have the Compaq DeskPro 560 XE with 8MB RAM, 1GB Hard Drive, keyboard and mouse for only \$749. Come in for a test drive this week!!!

DEC COLOURWRITER 520ic

As one of the most inexpensive inkjet printers on the market, the digital DEC Colourwriter 520ic is the cheapest printer on the market. What makes the DEC an even better printer than other manufacturers is the price for its consumables. DEC's black and colour cartridges are priced far lower than their competitors. At this price these printers, that come fully refurbished from digital won't last for long! Come in to the store for a demonstration today!!!

**COMPAQ LTE 4/33c
486 colour laptop**

The Compaq LTE 4/33c is an excellent 486 model colour laptop that comes complete with 12Mb of RAM, 210MB hard drive, docking station, and CD-ROM. This laptop has been our store's number one seller. The LTE is perfect for business and student use. Come in to the store with this ad, and you'll receive a free carrying case with your purchase. Come see this machine perform!!!
