# Parents could choose to turn in rebate to childrens' school

■ From page 19 ■

school board and ultimately their school?

My decision is clear. I'll file the paperwork for my \$120 and then give it directly to the school.

Sure, I could use that money to buy Christmas presents or pay a bill or two.

But if giving it to our school means my daughter won't have to share text-

books for her next book report or my son will have more gym equipment and a second computer in his classroom — it's a small price to pay for a better education.

I can't personally change Bill 160 or improve teacher-government relations in this province. But I can make a slight improvement in my own kids' educational experience.
