

Lake to receive assistance from new community group

Musselman's Lake has a watch dog community group, has formed to oversee the lake and the surrounding com-

munity. Its first public meeting is on March 25 at 7 p.m. at the Ballantrae Community Centre.

"The lake needs attention," said group member Caroline Lafleur. "The neighborhood and the lake needs to be cleaned up. As a group, we can accomplish things," she added.

Friends of Musselman's Lake plan to function as an environmental stewardship program.

"Our goals will centre around bringing the community together to focus on the needs of the lake and the surrounding area," stressed Lafleur. Victor Drive resident and group member Ruth LeBlanc said since residential development is a reality, much care needs to be taken to protect the environment. "And, we must always be mindful that our lake is a

thing of beauty," said LeBlanc.

Former area councillor Mike Watson said he wants to see the Friends of Musselman's Lake work to create a clean and safe environment. "I want this group to help shape the future of Musselman's Lake," said Watson. "There are going to be a lot of changes to the area in the next few years. It's up to the residents to ensure these changes don't have any negative impact on our area. Yet, at the same time, we should take any opportunity to correct previous mistakes where possible."

One of the group's first jobs is to roll up its sleeves and clean the lake area. Lake clean-up day will be held in late April.

Everyone is encouraged to attend the Wednesday meeting. For more information call Lafleur at 640-9584 or Watson at 640-8695.
