Personalized service from Artistic Impressions Landscaping

Artistic Impressions Landscaping wants to help you create beautiful outdoor living spaces.

Tina and Charles Martin have been designing and creating beautiful gardens, ponds and front and backyard landscapes for over 12 years.

"We have landscaped over 600 homes," said Charles. "We have many clients who call us to landscape their third home."

Clients keep returning to Artistic Impressions because they know they will receive personalized service every step of the way.

Before any work is completed, Tina will sit down with the clients so she can understand their needs and requirements.

Once she knows what they want, she will design a complex, hand-drawn masterplan detailing where everything will go.

It takes about 10 days to receive the coloured and to-scale drawing.

Once the drawings are approved, Charles and his team of full-time horticulturalists and masons will begin construction.

"We take the design and work with it substituting various materials," said Charles. "This way we are able to tailor the designs to clients' budgets."

Work is usually completed within a week. Artistic Impressions is able to complete work quickly and efficiently because the company owns its own equipment.

Friendly and knowledgeable staff

The staff at Artistic Impressions go out of their way to make sure their clients are completely satisfied.

The client is consulted throughout the design and construction process and trained

Charles and Tina's daughter, Veronica likes to help in the garden.

staff are able to answer any questions and concerns.

Once the work is done, Artistic Impressions will give their clients written instructions on how to care for their new landscape.

"We are not a snowplow and lawn cutting service. Artistic Impressions builds beautiful outdoor living spaces. We are a small business catering to the average homeowner. Every client is important to us."

For details contact Tina or Charles at 472-0797.

Reduction in hair loss guaranteed

Nisim's products regulate and reduce excessive hair loss

There is new hope for people who are losing their hair.

Over 135 million men and women in North America are suffering from excessive hair loss.

Not only is costly (according to data from The Hair Loss Council of America men spend about \$1,500 on hair loss products, while women spend about \$1,800), hair loss often causes its victims to become self-conscious.

But Nisim International has a solution.

The Brampton-based company produces a line of shampoos, conditioners and stimulating extracts that are proven to regulate and reduce excessive hair loss.

Within a week, most people who use Nisim will find less hair on their pillow, comb and in the shower, said John Nikolaou, president of Nisim.

Nikolaou is so sure that Nisim works, that it comes with a money back guarantee.

The Nisim Story

Nisim actually started back in the mid-1970s when researchers tried to find a product that could be used to prevent and reduce excessive hair loss.

Nikolaou came on board in 1991 after he tried the product on some friends as well as himself.

He was so impressed with the results that he quit his job and took the unnamed bottle of shampoo to salons across Toronto.

Now, seven years later, Nisim products can be found in 12 countries and hundreds of

salons in Canada, including Salon Tres Chic in the Bridal Trail plaza.

"When my hair started thinning, I began to research different companies until I came across Nisim," said Mariana Hegyi. "I have noticed a significant decrease in the amount of hair loss."

People purchase Nisim because they know it has been thoroughly tested (Nisim's products are the only non-prescription product to undergo the Scalp Biopsy Study).

And because it is an herbal product and not a drug there are no negative side effects and people can use it daily.

The shampoo is the key product in the Nisim line. When used daily, people will see a reduction of hair loss and in some cases it will also restimulate weak hair into stronger strands, said Nikolaou.

People who have a history of hair loss in their family, but haven't yet experienced it themselves can use the shampoo as a preventive.

The next step in the treatment is a stimulating extract. This is massaged gently on the scalp twice a day and the hair - if lost between two and five years - will return.

There is a better than 85 per cent chance for regrowth of full terminal hair.

For further details about Nisim products, contact Mariana at Salon Tres Chic at 905-477-0023. The salon is located at the Kennedy Bypass south of 16th in Unionville.

Within a week of using Nisim products, people will find a reduction in the amount of hair they lose.
