Sunwell Technologies Inc., a small, growing manufacturer of industrial ice generation systems has a requirement for a full time...

SR. PROJECT ENGINEER/MANAGER

This is a hands-on senior position in a small engineering department of 2 people, entailing a wide range of duties and responsibilities including directing both product engineering and project engineering.

Responsibilities include developing and implementing a master BOM system for all standard products and systems, pump and valve selection systems and master BOM's, drawing filing systems, and other engineering systems.

This person will also be responsible for taking projects as entered from application, engineering, develop BOM's and write PLC programs to control the systems.

This position will require process engineering experience, ideally in the fish or food processing markets, as well as product/system design experience. Selection and specification of electric power and control system components is also required.

Please fax resume to:
Sunwell Technologies
180 Caster Avenue, Woodbridge, Ontario L4L 5Y7
Fax: 905-856-1935 **Please, no phone calls**
