Vacmaster, not your typical vacuum store

Most people are impressed when they walk into the Vacmaster — first by the neat, organized store display, then by the knowledgeable staff. Vacmaster has central vacuums as well as portable vacuums for both residential and commercial needs.

Most new customers have been referred by a friend, although we are listed in the Yellow Pages," said Joe Bond, who has owned Vacmaster since 1985.

Repairs — which are done on the premise — are completed quickly because most of the parts can be found in Vacmaster's large store room.

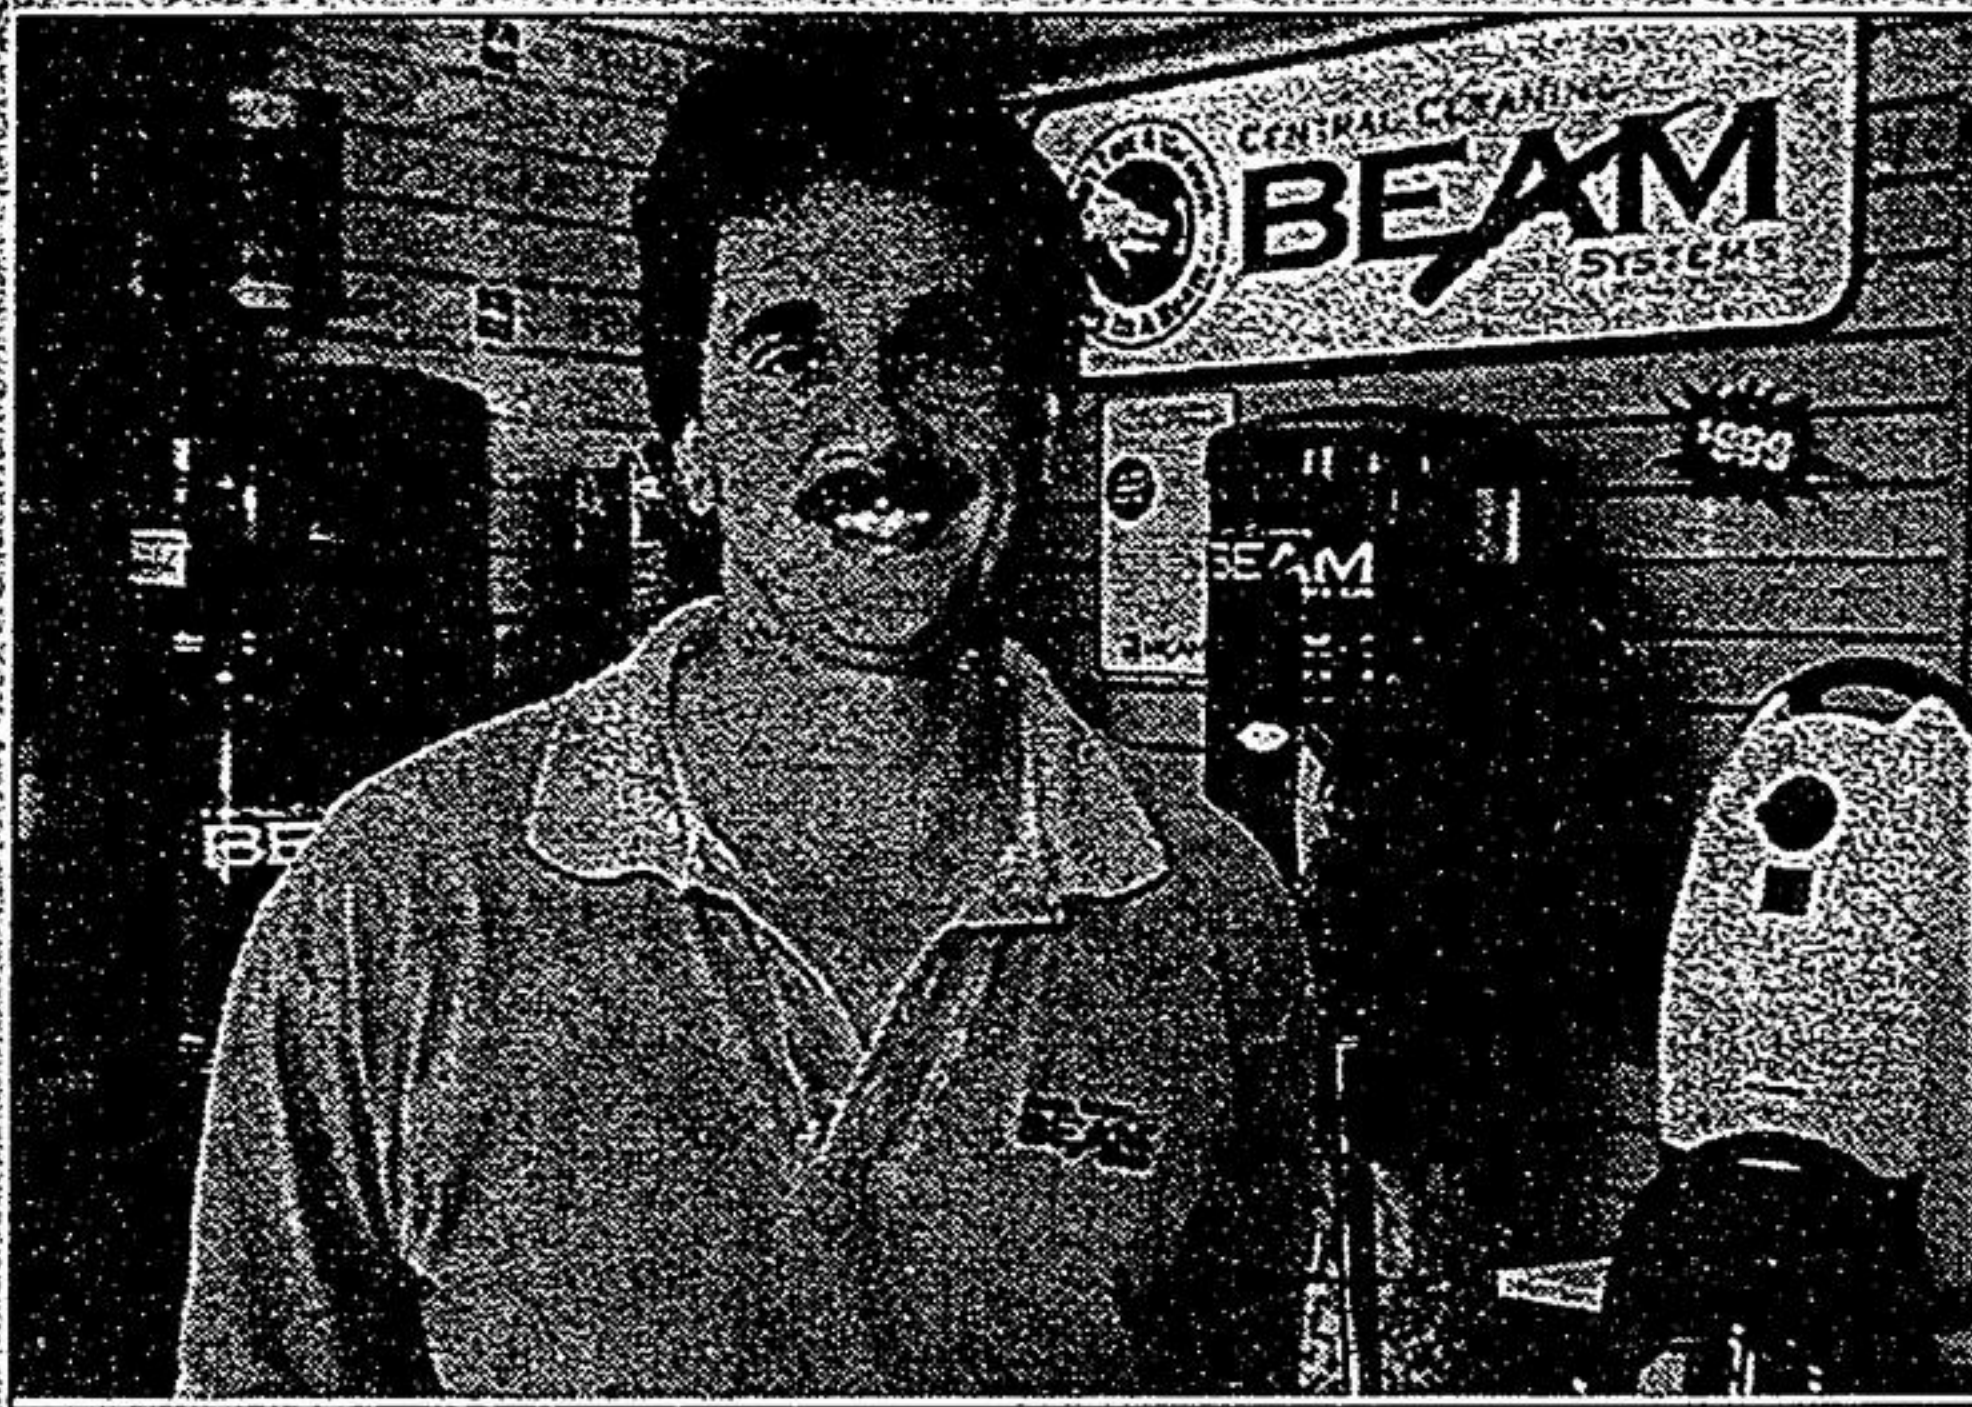

Vacmaster also provides free estimates.

Miele vacuums is a new line carried by Vacmaster, which appeals to the environmentally conscious.

Suction and air flow are the secret to removing clinging hairs, allergens, dust and dust mites. Mattresses, pillows, carpets, drapes and upholstered furniture need the power of a Miele vacuum to suck up microscopic particles and a filtration system that traps them inside the cleaner.

Here's a test: the air in a room should smell fresher and feel cleaner after vacuuming. Does yours?

'The best pizza in town'

Judy's Pizzeria serves pizza and a variety of homemade pastas with seasonal farm-grown organic vegetables and spices

Pizza tastes the best when it is eaten straight from the oven.

And there is no better place to enjoy it than at Judy's Pizzeria.

Maria and Frank Rossi have been operating the pizzeria for nine years and are always told that their pizza is the best in town.

"I get that (comment) two to three times a day," said Frank.

While people will often pick up a pizza to bring home, Frank also encourages people to enjoy it right at the pizzeria.

Tables and chairs are set up so people can eat the pizza while it's still hot.

People can phone us, place their order and when they come to the pizzeria, it will be ready to be eaten.

Frank and Maria own a small farm where they grow their own vegetables and herbs and raise chickens for the eggs in the pizza dough and pastas.

People can order Judy's Pizzeria's 12-inch small pizza, their 14-inch medium pizza, 16-inch large pizza, 18-inch party-size pizza and their 16-inch by 21-inch jumbo-sized pizza.

Vacmaster TIP OF THE WEEK

Did you know that you should change the belt on your vacuum every 6 months?

The belt stretches over time due to usage, causing the belt to slip on the drive shaft. This means the brushroll turns slowly and puts excessive strain on your motor and bearings which can cause costly repairs. It's very important to buy the right belt for your type of vacuum.
