# Focus On Business

## Window and door shopping is easy thanks to Encore

Encore Home Improvements makes shopping for new windows and doors an easy and pain-free experience.

While window and door installers don't have to go to school in order to practice their trade, every installer who works for Encore has been certified by Window Wise, a national organization which trains people using the latest techniques. Encore is also a member of SAWDAC—the Siding and Window Dealers Association of Canada, holds a license and has insurance.

The sales people have also been trained and follow a strict code of ethics.

To Encore's customers, this means that they will receive the best service, highest quality windows and doors and competitive prices.

"There is no high pressuring sales," said Mike Montecalvo who owns Encore with Dave Rosolen. "We give options and allow the customer to make his/her own choice."

And customers only pay when the work is finished.

Encore only sells high-quality windows and doors that are manufactured locally. All the products are maintenance-free and carry a lifetime warranty on both the parts and the labour.

But people aren't limited to the size of windows they currently have.

"We do custom work. We not only enlarge openings, we can make new openings as well."

Encore is now doing porch enclosures as well.

"It's the new wave. People want to add more living area to their home. And they get a lot more light as well."

All of Encore's windows and doors are manufactured locally. For the customer, this means that the products are made for Ontario's climate and if there are any problems, people receive same day service.

For details call Encore at 470-0750 or visit their showroom at 450 Alden Rd., Unit 7.

# Children come first at King's Kastle Daycare

Children's happiness and well being is the focus for King's Kastle Daycare.

"We are in it for the children," said Kristal King, who owns the new daycare located south on Major Mackenzie on Hwy 48.

King started leasing the heritage home a year ago with the intention of opening a daycare different from any other.

"We treat the children as individuals," said Jennifer Black, the supervisor at King's Kastle. "We try not to focus on age as much as the levels of learning, we will move a child ahead if it is beneficial for them to do so."

An advantage of King's Kastle is the low child to teacher ratio. King's Kastle has four rooms—toddlers, junior and senior preschool and the junior kindergarten room. There is an early childhood education teacher in each room.

Each room is equipped with educational and fun toys, games and books as well as a computer for the children's use.

Children between the ages of 18 months to five-years-old are welcomed at the daycare.

King's Kastle is opened from 7 a.m. to 6 p.m. Monday to Friday. They are closed during statutory holidays. Breakfast, lunch and two snacks are provided by the daycare each day.

"I would like to thank my parents, Cindy and Wayne King," said King.

"They are the reason I love children so dearly. My father has been on the Toronto police force for over 20 years and my mother not only raised my sister, brother and I, but also helped raised hundreds of other children either through home daycare or fostering children."

"Two years ago, when I was 17 years old, I went to my parents and said 'I am going to open my own daycare.' They didn't even hesitate to put their lives on hold for me and my Kastle. Without them I could never have accomplished this much. Being raised in a home full of love and children is why I want parents to feel as comfortable bringing their children to King's Kastle as so many others have bringing their children to my mom."

"I think of King's Kastle as a family business, my family business."

For details or to register your child, contact King's Kastle Daycare at 472-KING (5464).

### Vacmaster TIP OF THE WEEK

Did you know that you should change the belt on your vacuum every 6 months?

The belt stretches over time due to usage causing the belt to slip on the drive shaft. This means the brushroll turns slowly and puts excessive strain on your motor and bearings which can cause costly repairs. It's very important to buy the right belt for your type of vacuum.
