

OUR FREE RANGE TURKEYS!

A glance at this newspaper will tell you that everyone has turkeys for sale in every size, shape and price. Why buy one of our turkeys? It's simple really. What begins as a promising career for a turkey may take a turn for the worse - he may end up being caged and factory-raised, eventually to be offered in frozen or ice-pack form.

Our turkeys are free-range turkeys - they run loose and eat naturally. Add to this a gentler de-feathering process which leaves more of the natural flavour (and the odd feather) with the turkey and you'll see that there's a big difference between these two approaches - and it will be evident at the table. Our turkeys will be very moist, very tender and flavourful beyond your greatest expectations, unless of course, you've dined on one of our old-fashioned turkeys before - ready to roast 2.59 lb.

Available in sizes from 14 - 19 lb. and 22 - 25 lb.
