TIRE ROTATIONS
STEERING

Come see what makes us a winner...

In order to stay #1 we are now offering our customers the new MotorVac®.

Since your car was new, dirt, varnishes and carbon deposits have been forming in your vehicle's fuel system, on the intake valves and in the combustion areas. These build ups can rob your car of performance and fuel economy, and increase harmful emissions. Left untreated, they could lead to costly engine repairs. The MotorVac® CarbonClean® Service is a

professional process that will clean your entire fuel system, and remove harmful carbon deposits. CarbonClean uses a unique detergent that will not damage your vehicle's sophisticated components. Best of all, you'll feel the difference! The MotorVac® CarbonClean® service is a complete fuel system service - ask for it with your next tune-up!

Thank You Markham for making us your Number 1 choice for Automotive Service
