

**Diagnostic Medicine:** *Where the road to treatment and recovery begins*

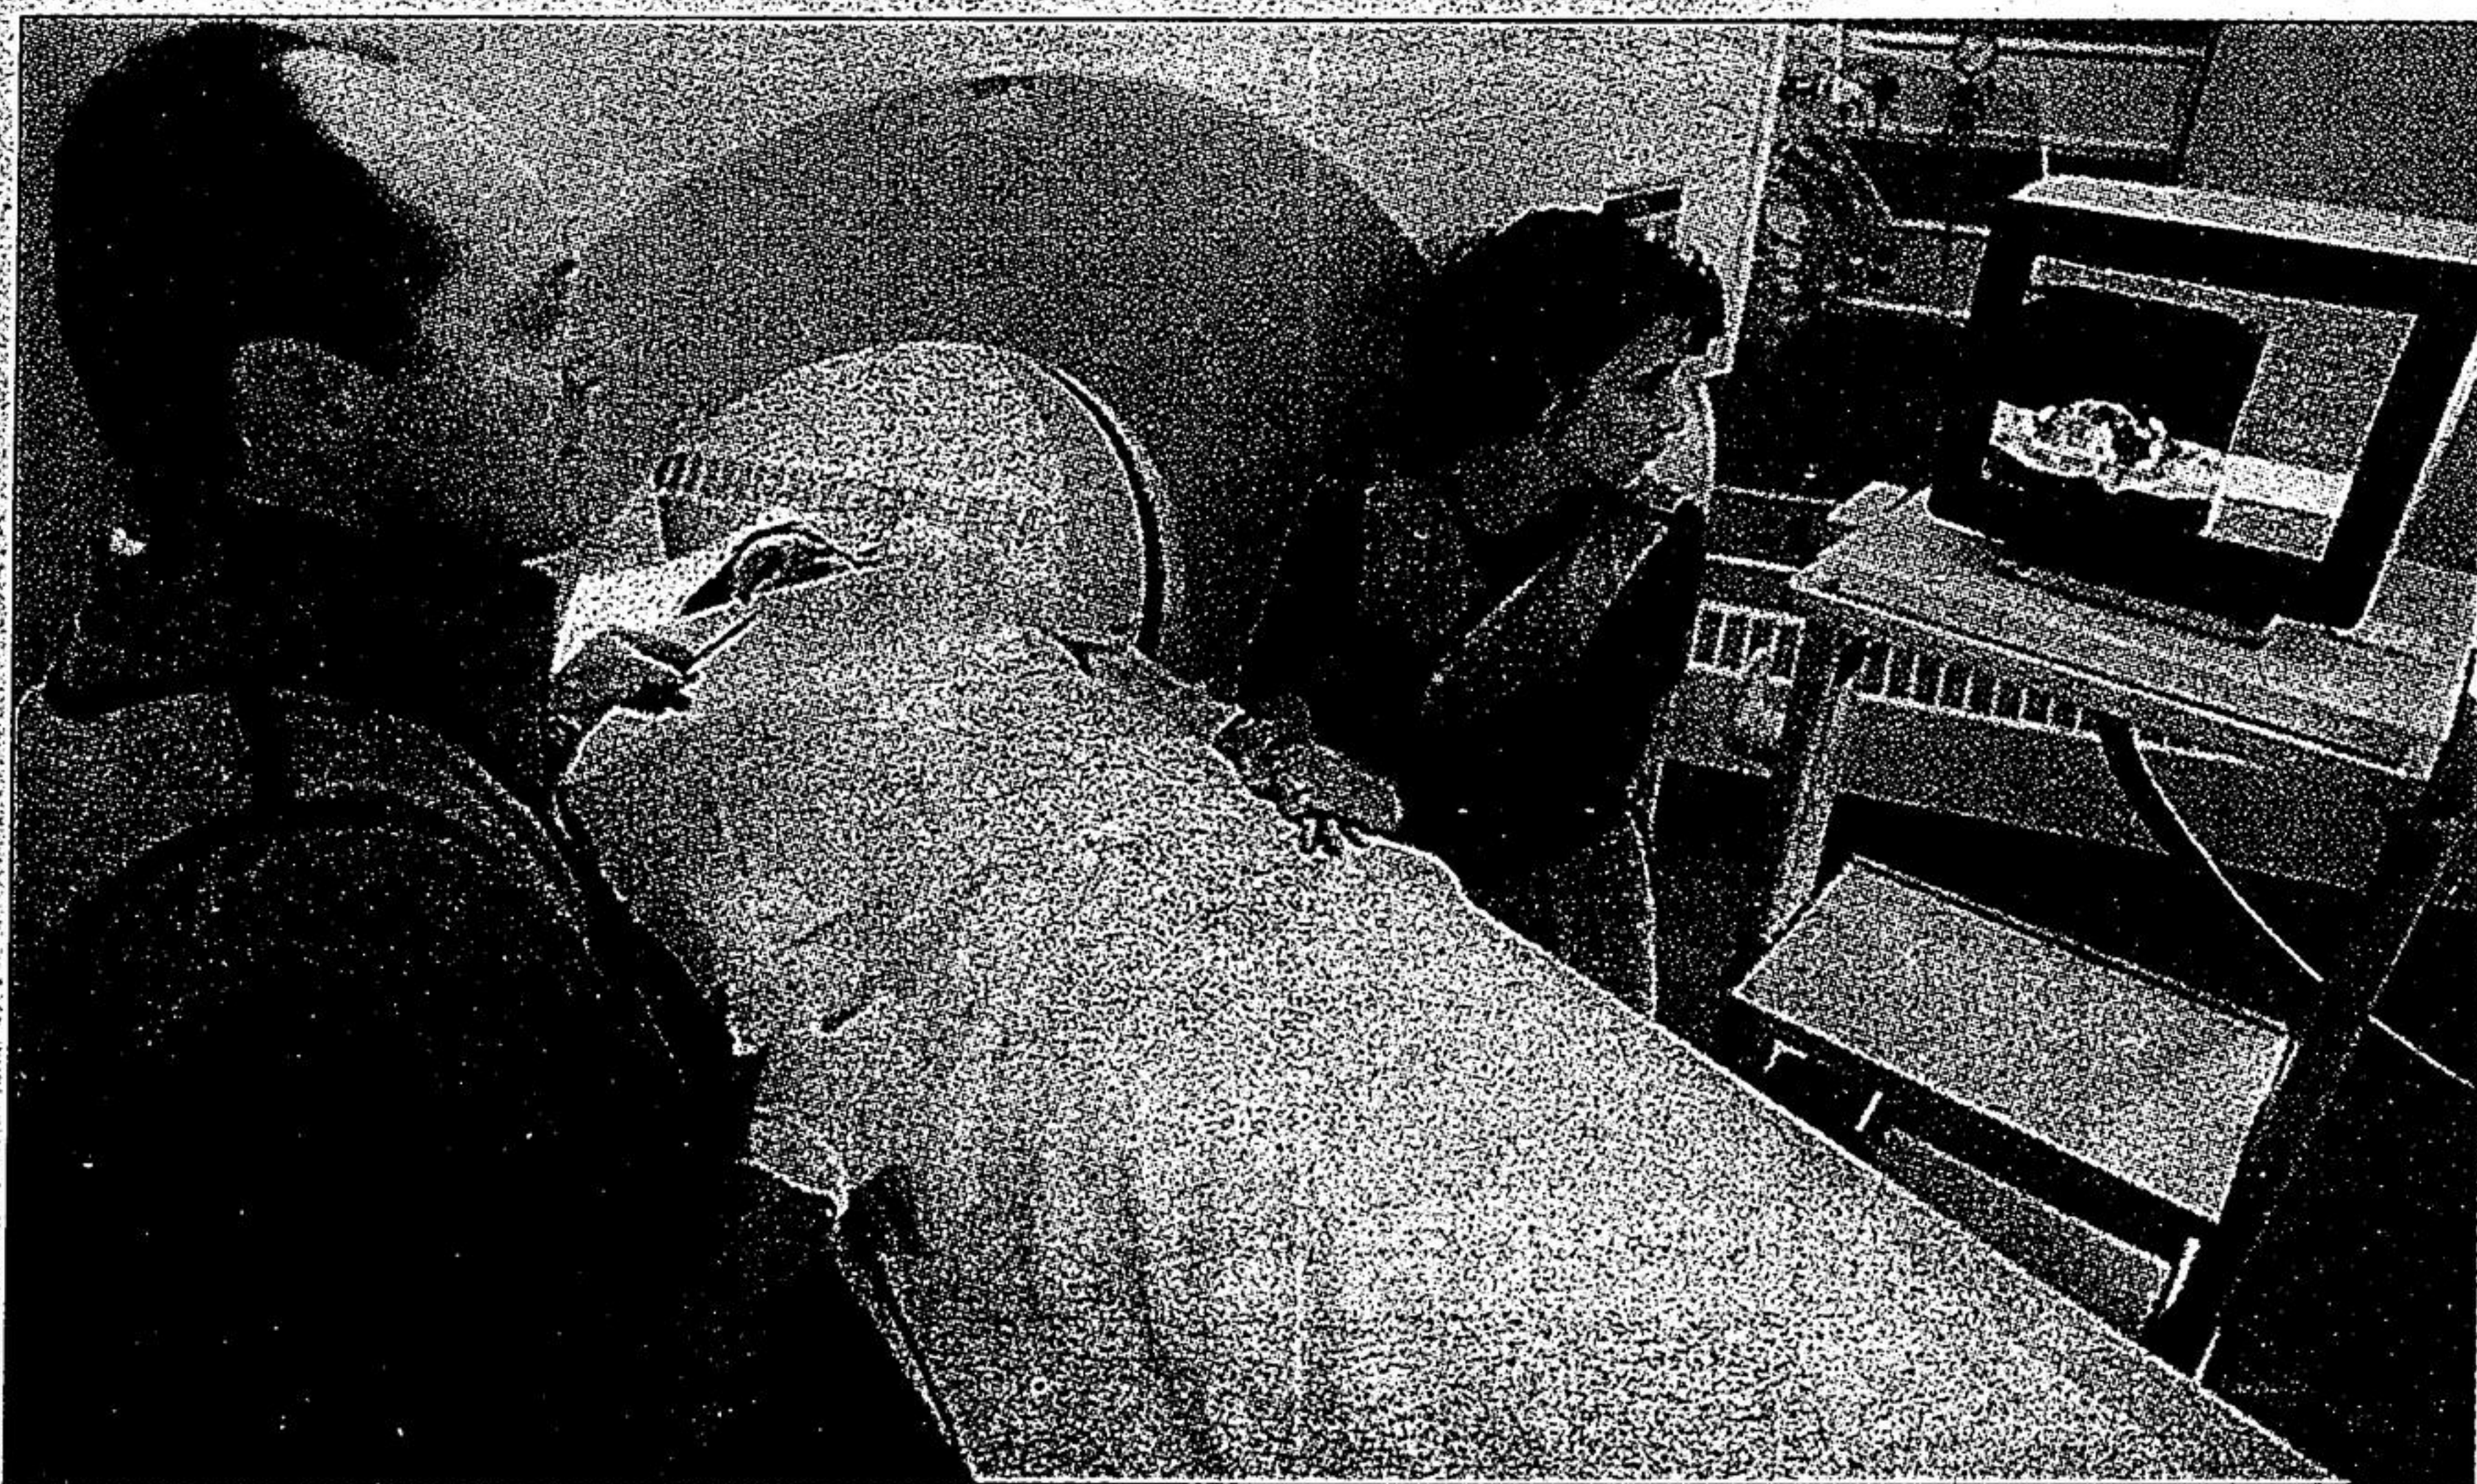

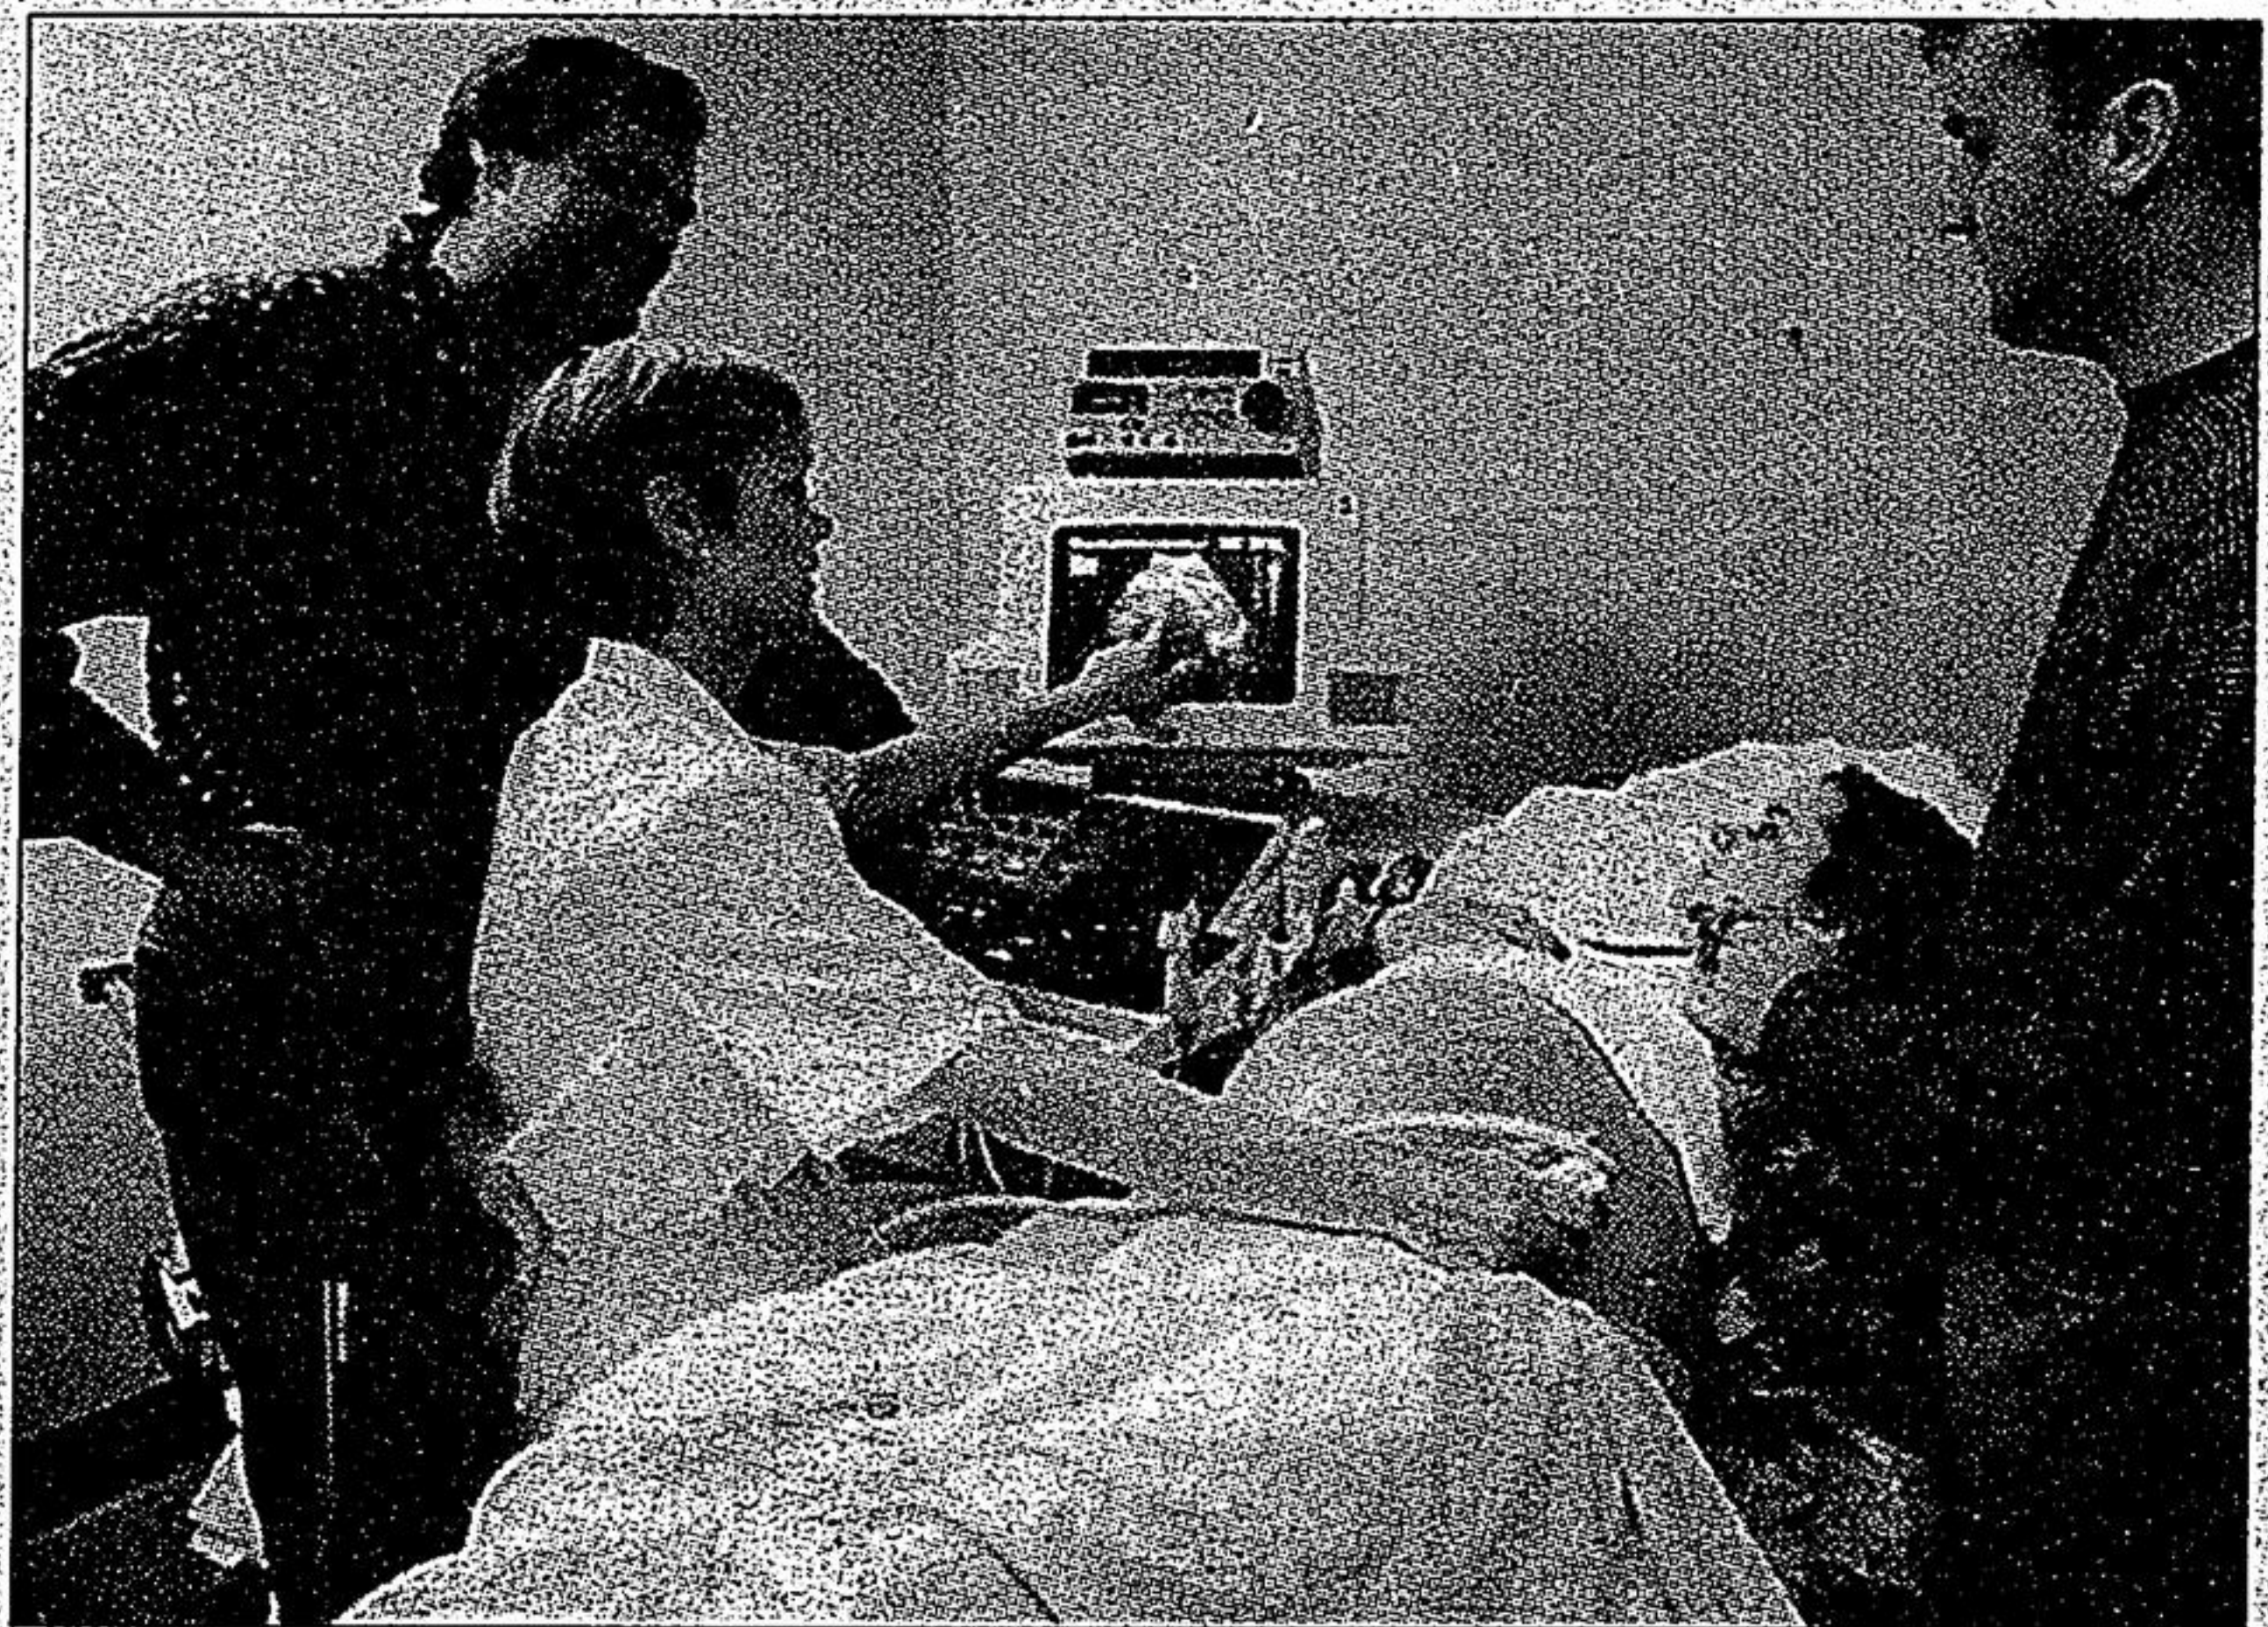

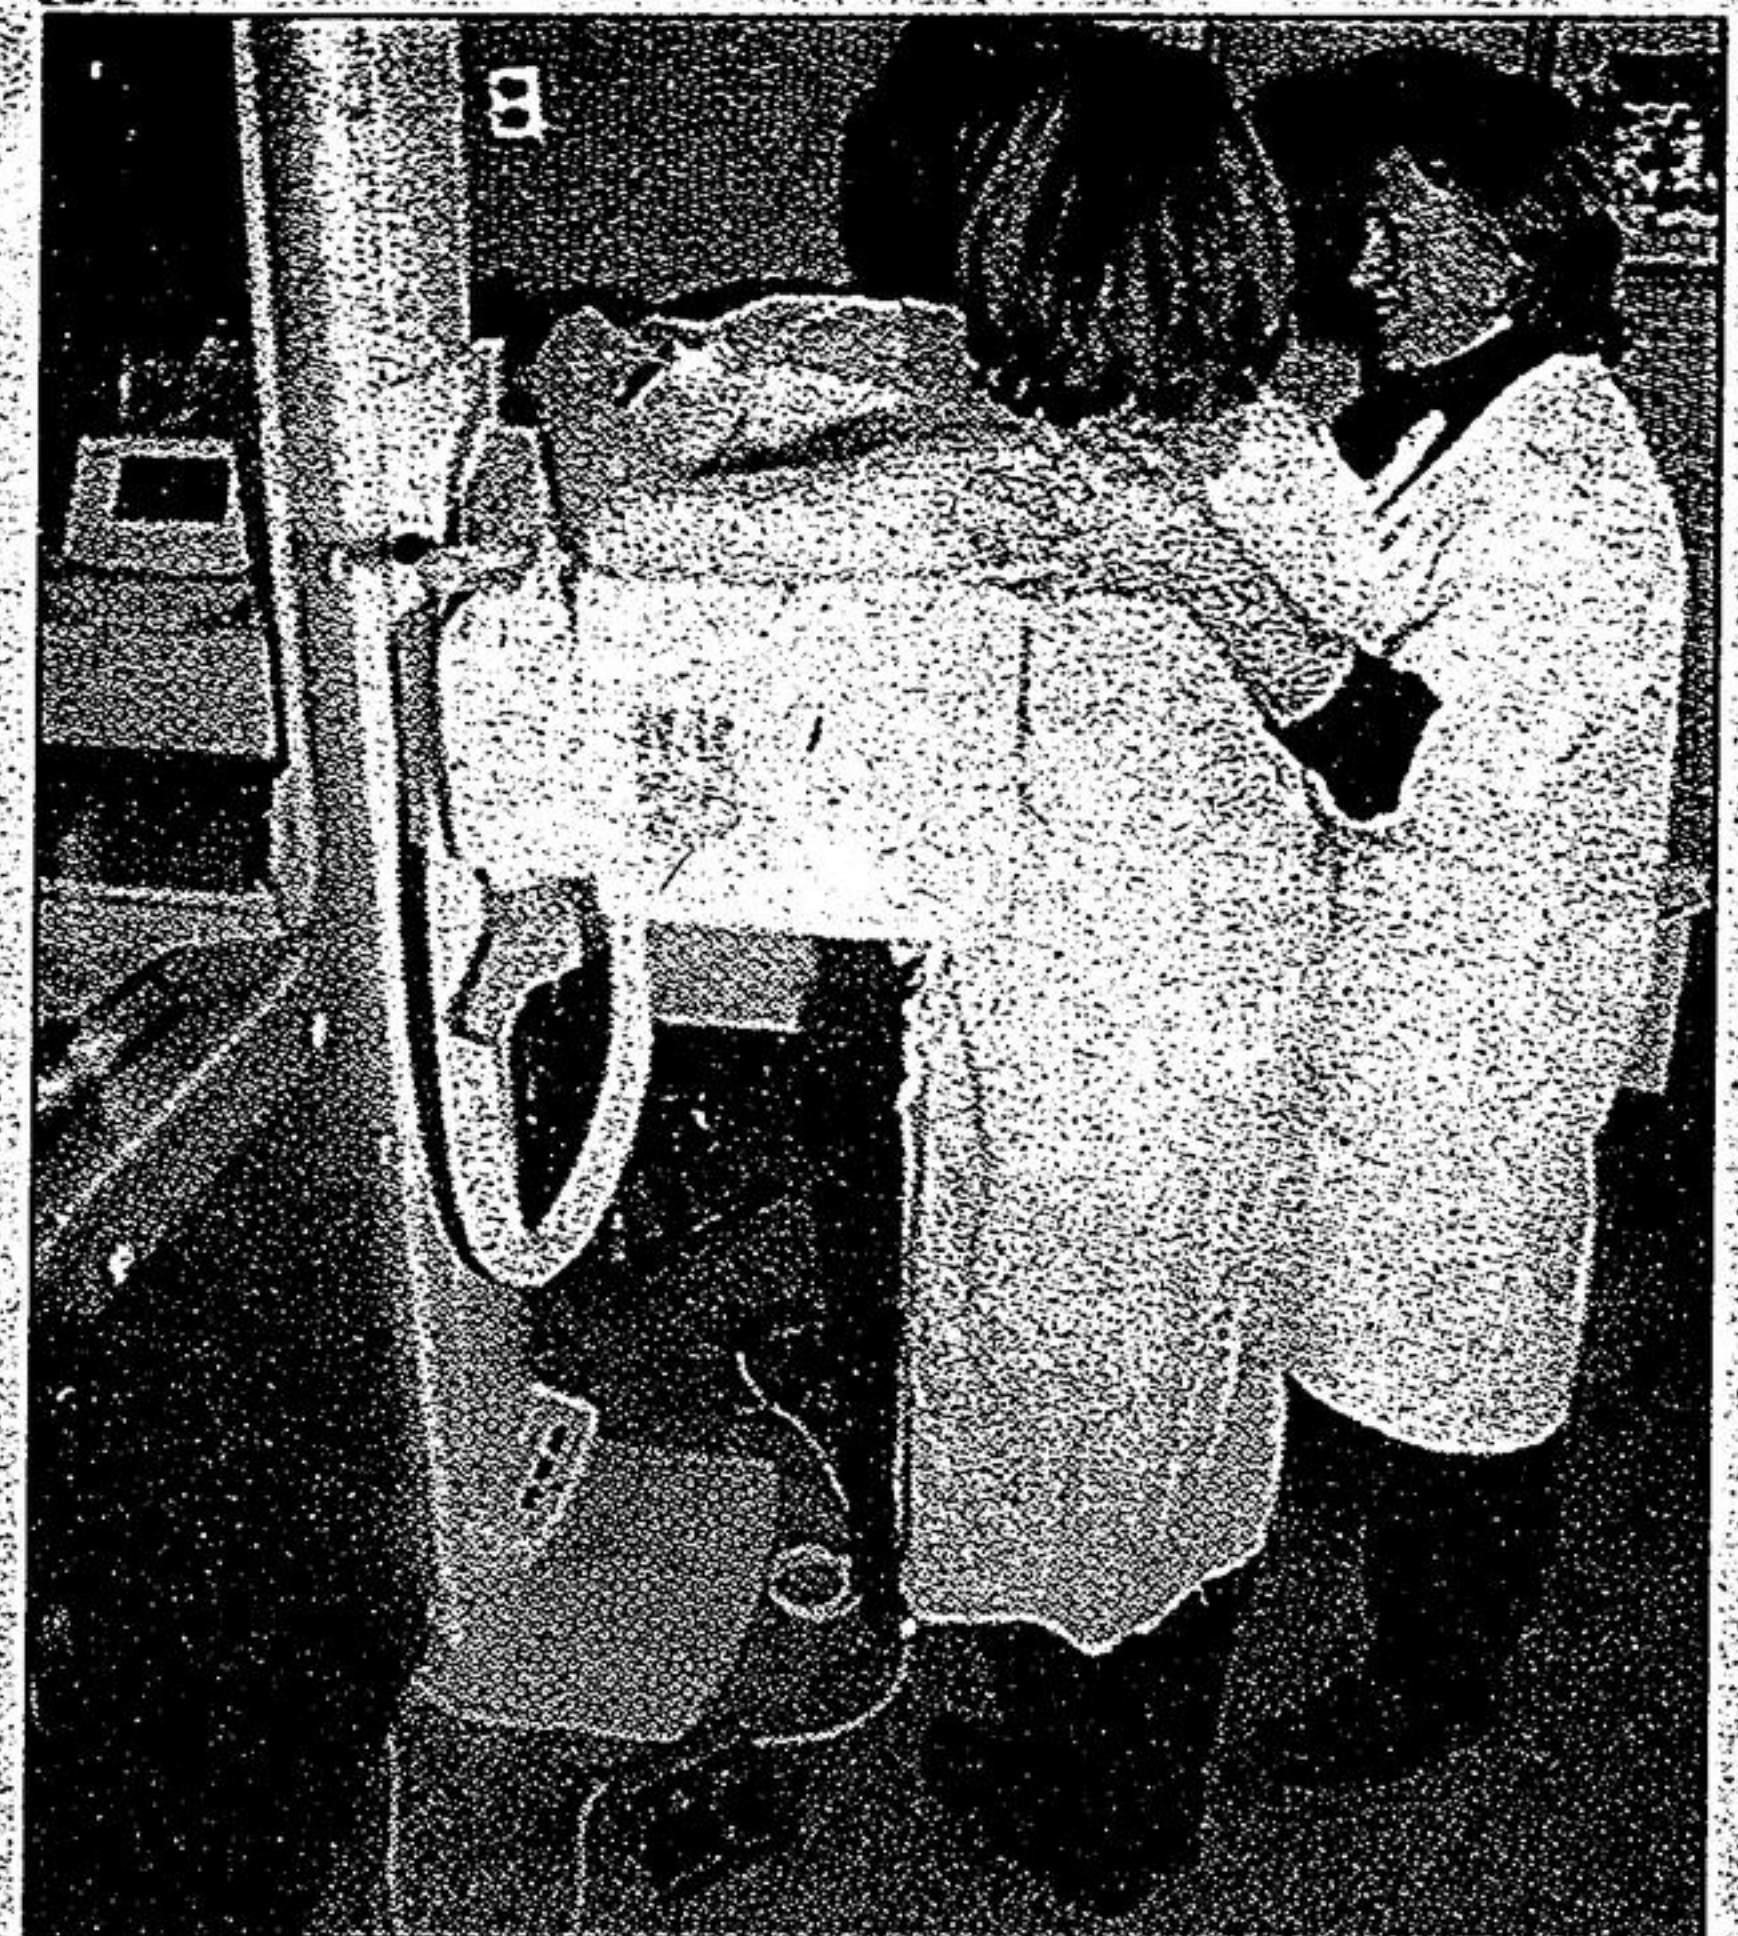

# A Day in the Life...

*... diagnostic services  
at Markham Stouffville Hospital*

In health care, the need to combine compassionate human relations skills, sophisticated technical understanding and specialized medical knowledge is crucial. As patients and consumers, we are encouraged to become more aware of what to look for from our health care system. At Markham Stouffville Hospital, patients can expect individualized care by highly skilled and friendly professionals using modern medical equipment.

These photos will introduce you to some of the dedicated staff, physicians and volunteers in the hospital's diagnostic services department and the tools they use. When the need arises, residents can rest assured Markham Stouffville Hospital has the technology, the expertise and the focus to provide testing in a compassionate and patient-centred manner.
