

Diagnostic Medicine: *Where the road to treatment and recovery begins*

Laboratory Services

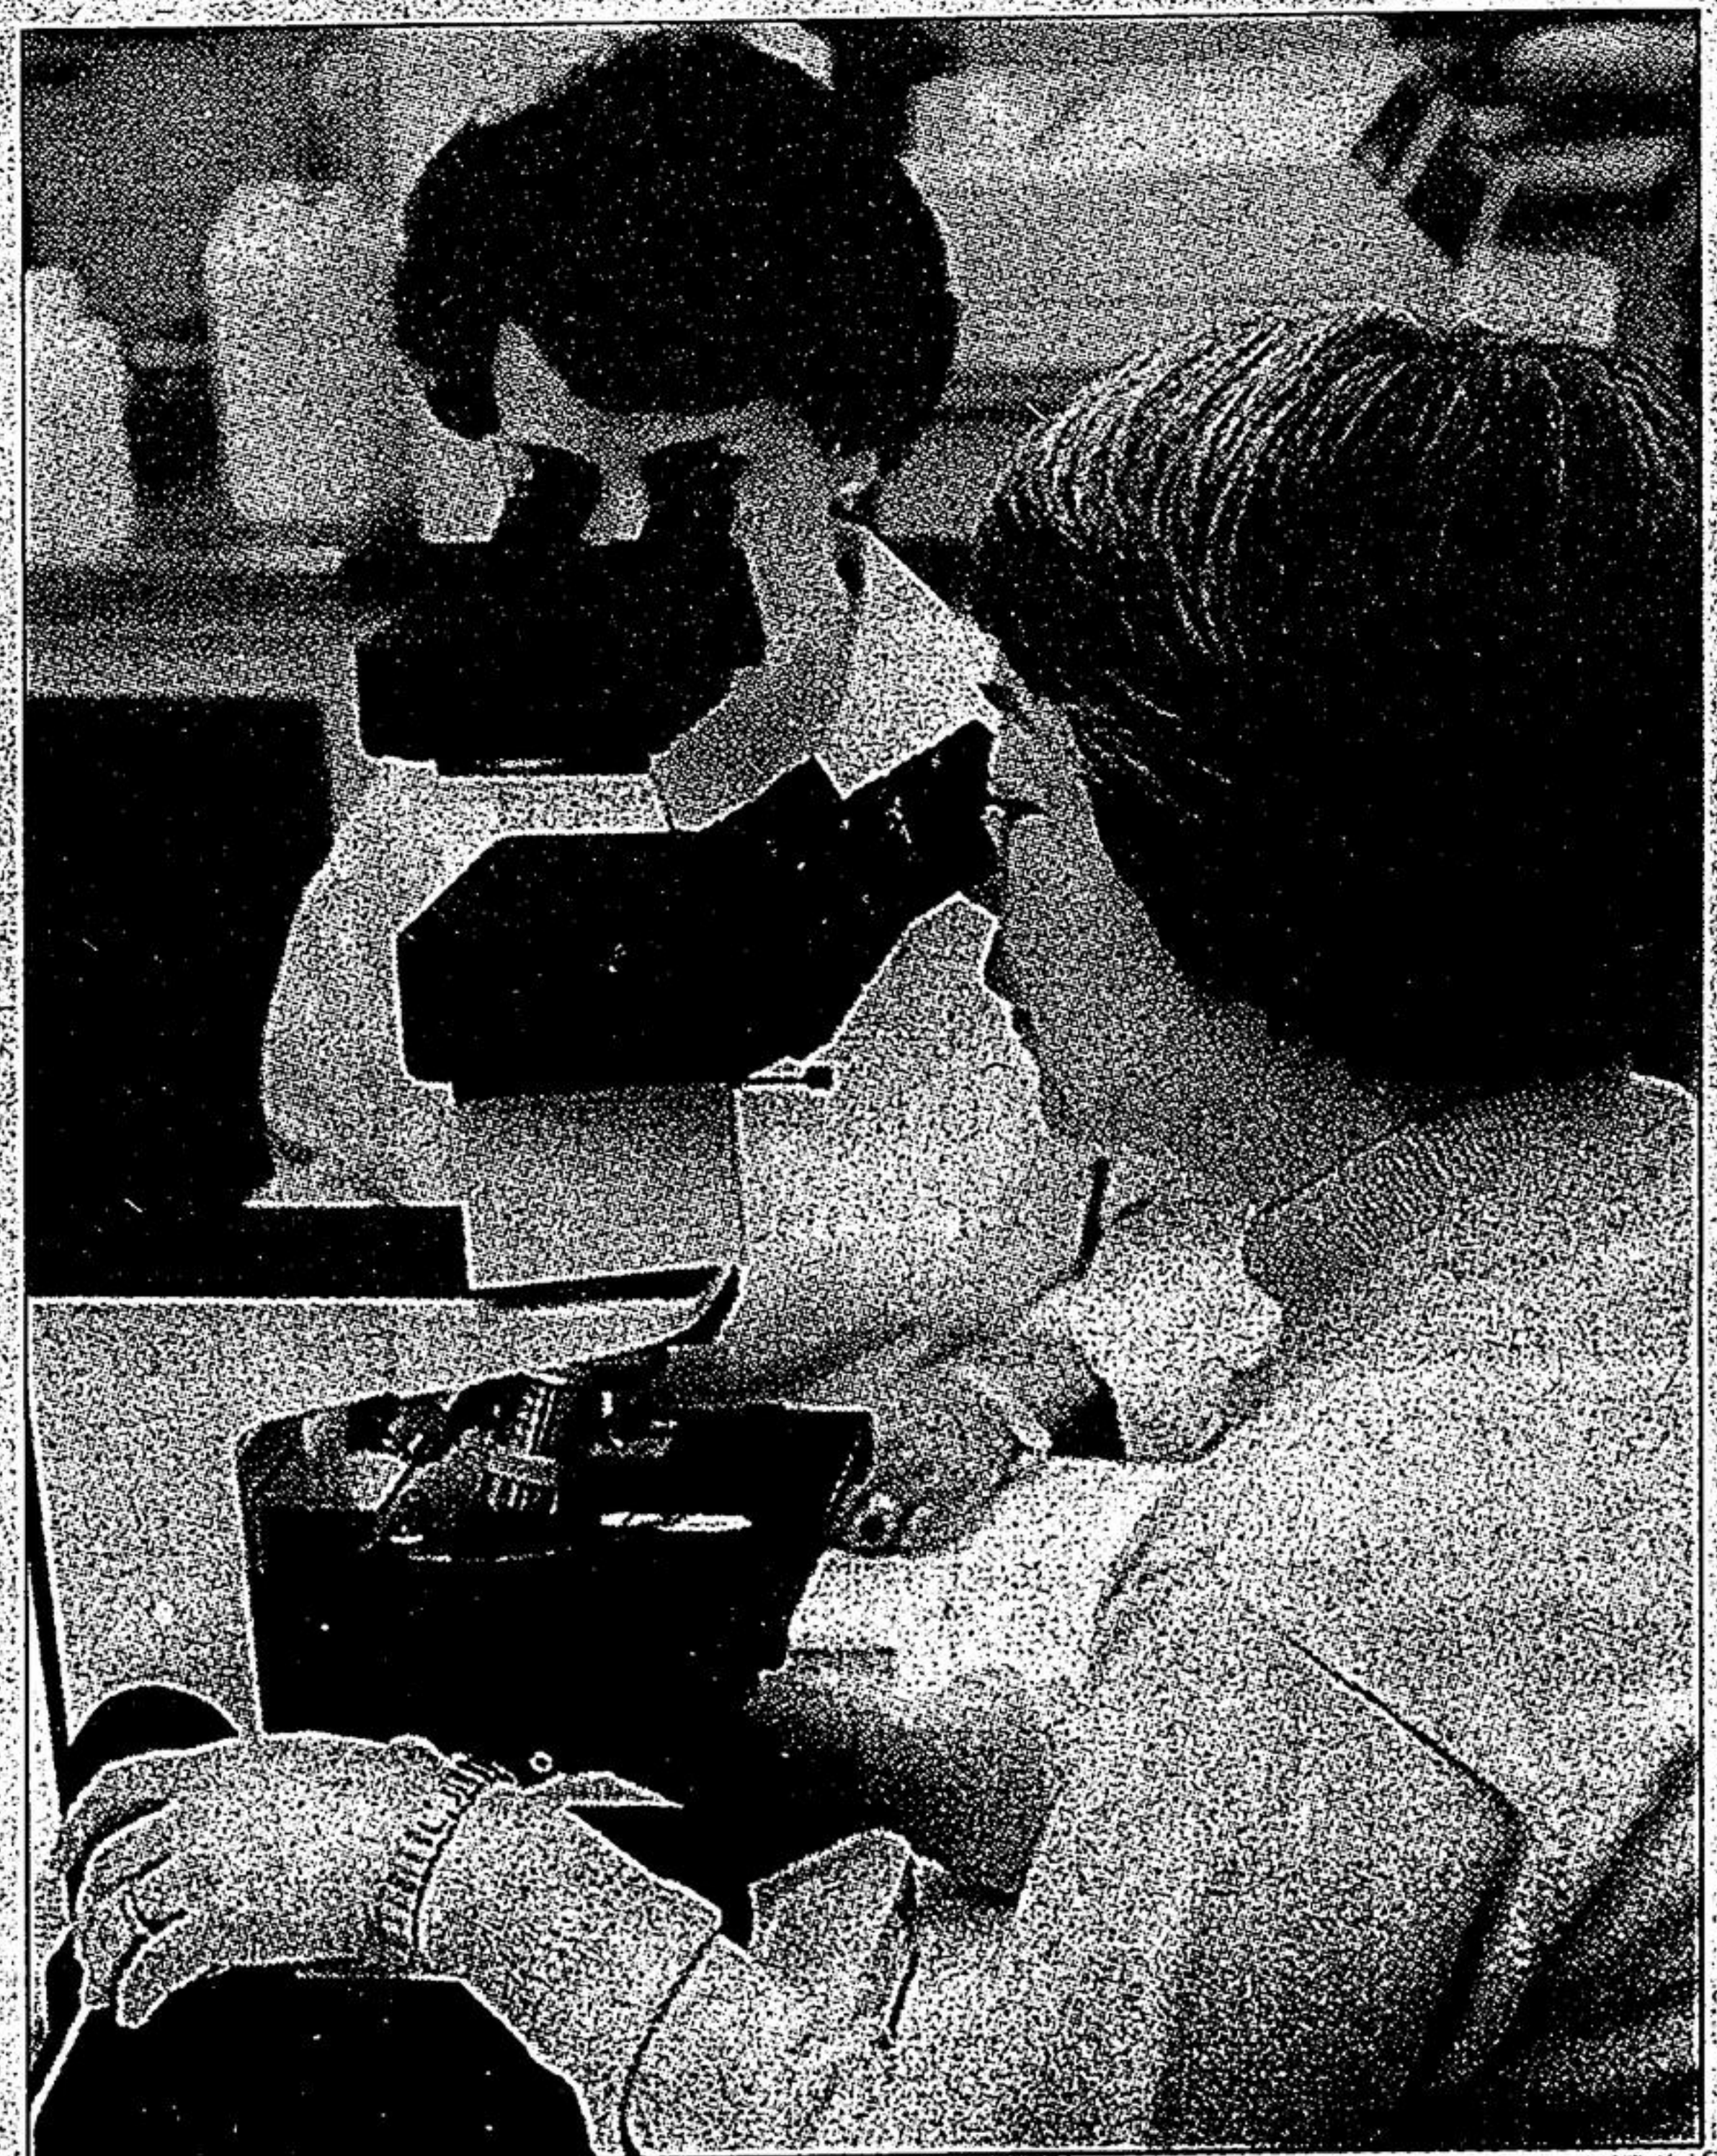

Rick Harrison, medical laboratory technologist, collects an autologous blood donation.

Medical laboratory technologist Nicole Thompson cuts tissue samples for a pathologist's interpretation, shown in photo below.

Joyce Chen, medical laboratory technologist, works with the chemistry analyzer.

Dr. Phoebe Shokry, chief of pathology and director of laboratory medicine, and Dr. Margaret Lee, pathologist, examine the tissue sample prepared by Nicole Thompson.

Nancy Chambers, laboratory assistant, takes a blood sample.
