

COMMUNITY: Team leaders and canvassers needed

Lung association campaign starts

The Lung Association's annual door-to-door fund-raising campaign in Stouffville, Newmarket and Aurora will be held from June 1 to 16.

Volunteer team leaders and canvassers are needed, and training will be provided, Carly Thompson-Wolf said.

"We need enthusiastic people to volunteer for just a few hours to help us raise vital funds to help prevent and eliminate lung disease."

Help as a canvasser by visiting neighbours, or as a team leader by distributing and picking up materials from canvassers.

Volunteers can choose a day and time convenient to them within the

campaign period, and will be fully trained. The total time required is approximately four hours.

The Lung Association is committed to the improvement of respiratory health through fundraising activities for the support of medical research and Lung Association community health programs.

Donations are used to support community programs in asthma, smoking prevention and cessation, and air quality/lung health issues, and to fund vital research into cures and better treatments for lung disease.

To volunteer, or for additional information, call 882-0101.
