Suncool Awnings offer homeowners a hassle-free way to improve the look and comfort of their home.

Suncool Awnings come in a variety of styles and colours and range in size from seven feet to 51 feet, said John Bouwmeister who, along with his wife Catherine, has installed the European-made awnings for the past 15 years.

Bouwmeister said he selected Suncool because the company provided a high quality product that could withstand even Canada's varying weather conditions.

PHOTO/LORI EMMERSON

The structure of the awning, which is made from anodized aluminum, reinforced cast aluminum and stainless steel, as well as the highest quality polyacrylic fabric, so the awnings can be used throughout the winter as well.

Bouwmeister installs retractable awnings that, either manually, electronically or wind or sun-sensored, pulls the awning into a case. The case is also made out of anodized aluminum and is completely bird-proof.

Awnings stop almost 100 per cent of the harmful UV rays from entering your home. It also reduces air conditioning costs by 25 per cent and enhances the look of the home.

Bouwmeister installs retractable awnings that, either manually, electronically or wind or sun-sensored, pulls the awning into a case. The case is also made out of anodized aluminum and is completely bird-proof.

neath the awnings up to 15°F and reduce air conditioning costs by as much as 25 per cent.

"Because the awning rolls tightly into the case, the birds can not nest in it," he said. And there are more benefits to awnings. "Awnings block almost 100 per cent of UV rays and protect your carpets, drapery and upholstery. They also give you an unobstructed view of your landscaping"

Suncool units have a five-year guarantee on the unit, fabric and motor.

Lifetime warranty with no exceptions

Encore Home Improvements will repair or replace windows, doors or porch enclosures for as long as you own your home

Encore Home Improvements has made it easier to purchase windows and doors.

"We are launching the lifetime warranty on all doors and windows," said Mike Montecalvo, who owns Encore with Dave Rosolen.

Encore Windows not only installs vinyl and wooden windows, they also do porch enclosures, doors and more.

"Other companies claim they offer lifetime warranties, but there is a lot of exclusions. With ours, it's the whole thing.

Encore's lifetime warranty includes parts and labour to repair or replace windows, doors or porch enclosures for as long as the person owns their home. And Encore isn't pro-rated.

In addition to the lifetime warranty, Encore is also introducing its Canadian-made windows with keep safe glass.

The glass is virtually unbreakable, keeps out 99 per cent of the harmful UV rays and is almost soundproof.

"It's less expensive and better looking than steel bars."

Encore Home Improvements has been installing windows, doors and porch enclosures for the past 10 years.

A member of the Siding and Window Dealers Association of Canada - Encore holds a license and has insurance.

While installers don't have to go to school to learn their trade, everyone who works with Encore has been certified by Window Wise, a national organization which trains people using the latest techniques.

Those techniques include the retro-fit and complete tearout installation. Installers have also been trained to complete different finishing techniques.

But the installers aren't the only people who have received excellent training. The sales people have also been trained and follow a strict code of ethics.

To the customer this means they receive a high degree of customer satisfaction that does not include high pressure sales.

Encore also does in-home financing in conjunction with the CIBC and the TD Bank.

Encore Windows is located at 450 Alden Rd. For details call 470-0750.
