Stories from the heart

Children of all ages say thanks

I love my mommy because she's nice and she buys me lots of toys and I love her and she lets me do safe things that are fun

Rafael Age 6

My Mom is the best because she helps me with my homework and plays games with me when she has time. She is the best cook and always cleans the house.

She buys me clothes that she knows I will like and in the summer we always go to Canada's Wonderland and have picnics.

My mom is the best because she loves me.

by: Anthony Carro

My mom is the best because she is a strong person. She has been in Ontario College of Art and Design for five years while raising me on her own at the same time. She did this so she can get a better job so that she can raise me better in the future.

It showed me that some things are hard in life, but worth it in the end. It showed me that I can do anything in life if I work hard to achieve it. My mom is very patient and understanding because when I'm upset about something and taking it out on her she is understanding and patient. She takes time to listen when I'm ready to talk.

I can trust my mom because when she makes a promise she keeps it. For example, when she promised to take me to the farm where she lived in Germany when she was my age, she took me there last year in December. This meant a lot to me because I wanted to see what it was like.

She takes time for me even when she is busy. For example, she takes time every week to drive me to the barn for my riding lesson. She takes time to talk to me everyday to see how my day went and what happened at school. She takes time to cook my dinner every night or leave me stuff if I'm

not home in time.

She enjoys interesting things such as art, drawing, working with stained glass, helping out in theatres and is never afraid to try new things.

This has set a good example for me in my life so I am willing to try new things in the future.

My mother is a very special person who I love very much.

Alisa Kurz, 14

My mother is so special because she cares about me a lot and I love her back, too. She is kind to my friends when we are in my house. She buys a lot of things that I like because she loves me. I even love her when we get into a fight. My mom is the best in the whole world.

By Alex N.

My mom is the best because she cares about me and teaches me how to cook and bake. She encourages me when I need to do something important. She helps me do my homework.

She is there when nobody else is. She does everything for our family. She buys me clothes and shoes when I need them and drives me to places.

She also lets me have sleepovers at my best friend's house. She lets me go to camp. She does not yell at me when I show her my low test marks.

She always takes good care of me when I am sick. She comforts me when I am down. She teaches me to make the right choice. She always reads with me.

I remembered when I was a little girl, she read me all sorts of stories every night. She still reads books to me at least twice a week although she works full-time and takes evening courses. She raised me and she is the only mom I have.
