CRIME WATCH

Horse shooter at large

Crime Stoppers and York Regional Police need your help in identifying and apprehending the suspect(s) responsible for the shooting deaths of two horses in the Town of Whitchurch-Stouffville.

Between 7 p.m. on Dec. 13 and 8 a.m. on Dec. 14, 1998, the culprit(s) entered a barn on the property of Greenwind Farms, which is located at 5096 Bloomington Sideroad.

Both horses were approached, both were shot in the head, and both succumbed to their injuries after

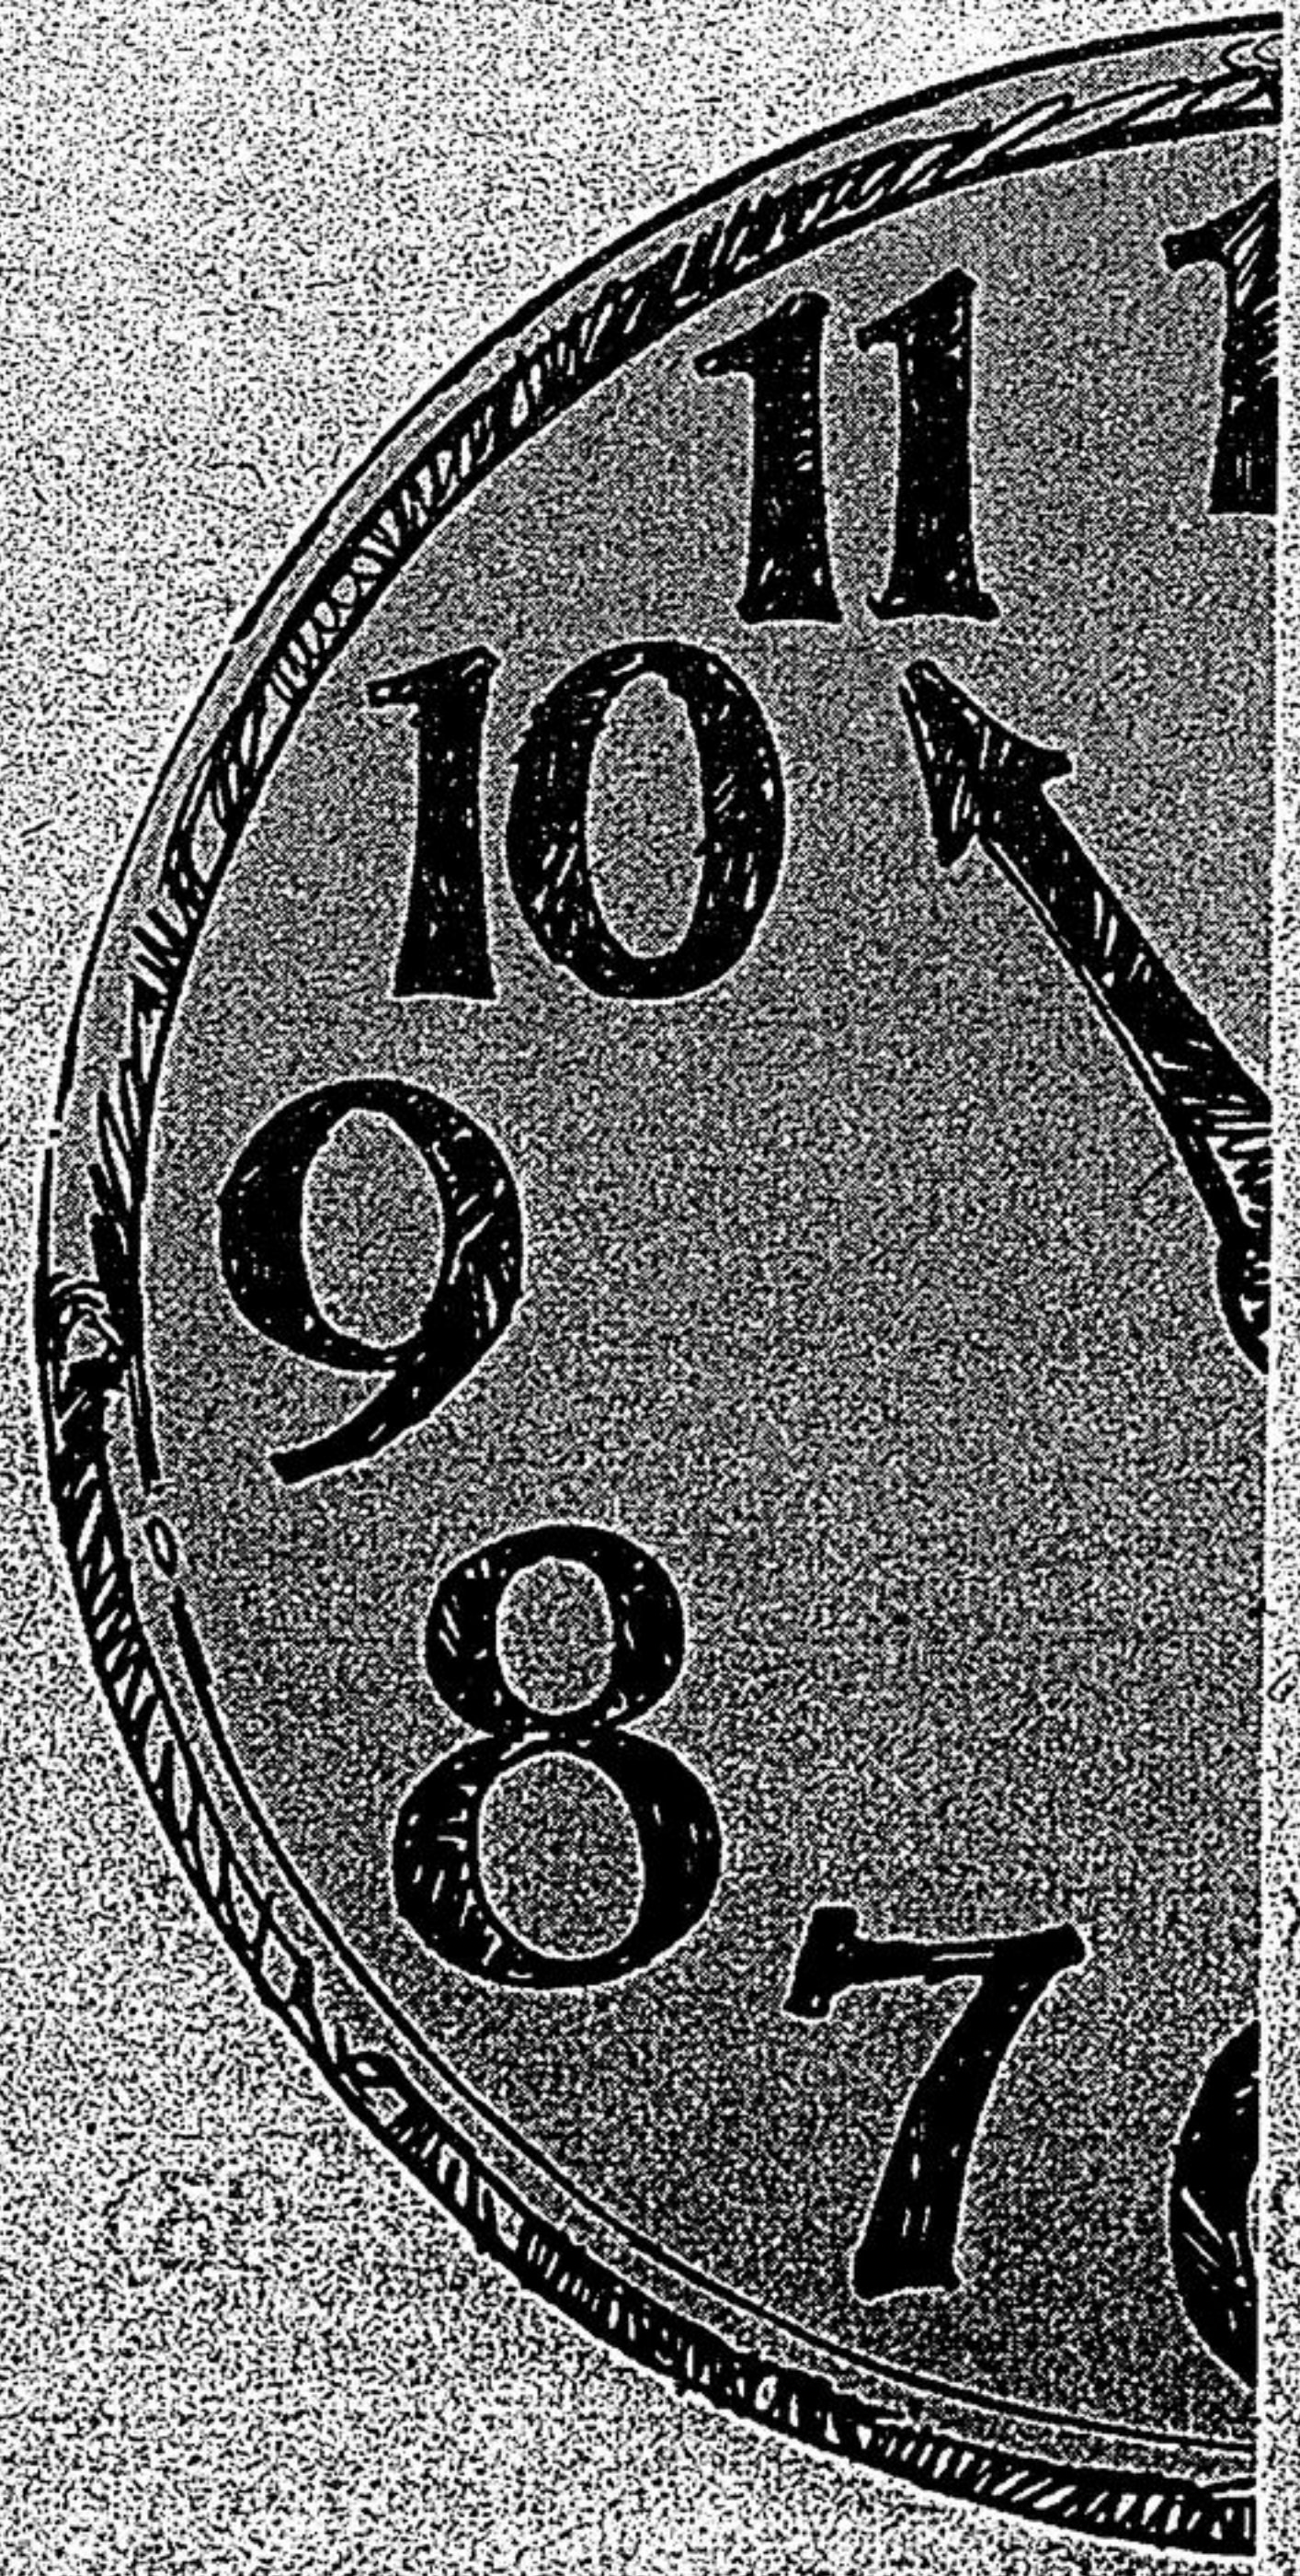

being treated at the University of Guelph.

Police have no description of suspects, but believe they are responsible for a similar occurrence in January.

If you have any information about this crime, or any other serious criminal offence, call Crime Stoppers at 1-800-222-TIPS. If the information you provide leads to an arrest, you may be eligible for a cash reward of up to \$1,000.

Callers never have to identify themselves, and never have to testify in court.

HOW TO CUT LAWN CARE TIME IN HALF

Do half the work!
Mow your lawn and leave the clippings behind. It's called "grasscycling" and it really works. As they break down, clippings return moisture and nutrients to the soil. No need to water or fertilize as much.

Grasscycling — it's easy...

1. Keep the blade sharp and set at 5 cm or 2 inches.
2. Cut once or twice a week before the grass is too long.
3. Water deeply only once a week to prevent excessive growth.
4. Cut only when dry to prevent clumping (but never in a drought).

Also-

- consider fitting a mulching blade to your mower
- think about buying a mulching lawn mower if you need a new one
- if you use a lawn service, ask them to grasscycle!

No more raking and bagging means more time for you!

Happy grasscycling!
