## FILM CLIPS

WHAT'S NEW AT THE MOVIES

Nicole Kidman and Tom Cruise star as kinky psychologists in *Eyes Wide Shut*, the much-hyped last film by director Stanley Kubrick.

**Eyes Wide Shut**  
Opens this week

**STARRING:** Nicole Kidman, Tom Cruise, Sydney Pollack, Marie Richardson and Tom Field. Directed by Stanley Kubrick.

**THE STORY:** The second most-talked about film of the summer is loosely based on Arthur Schnitzler's 1926 novel *Traumnovelle* (Dream Story). It's about a husband-and-wife team of sexual psychologists whose work crosses over into their personal lives.

**DEATH REPORTS NOT EXAGGERATED:** The hype machine has been working overtime on this hush-hush project. One paranoid Kubrick fan even suggested the director faked his March death to give the film more hype.

**EYES BLOODSHOT:** Secrecy surrounded the 18-month filming in England, but it was as stormy as it was sexually steamy. Harvey Keitel quit, citing artistic differences and Jennifer Jason Leigh was replaced by Swedish actress Richardson.

## NEW ON VIDEO

SNAPSHOTS OF THIS WEEK'S RELEASES

This week's video releases, along with abridged reviews from professional film critics:

**Central Station** with Fernanda Montenegro. "Oscar nominee for best foreign film, this is a simple tale, but so affecting it is among the top 10 films made last year." (Globe and Mail)

**A Civil Action** with John Travolta and Robert Duvall. "Though it sometimes lacks punch, it tells its tale of American justice well and is a cut above most of the rest that's out there."

(Sun)

**She's All That** with Freddie Prinze Jr. and Rachael Leigh Cook. "As flicks go, it ain't very much. But as high-school flicks go, this thing is trite-class." (Globe and Mail)

Other films scheduled for release on video this week were *Celebrity* with Kenneth Branagh, *Escape* with Treat Williams and the animated *The King and I*.

## FACT-FINDER

Insight into some of life's ordinary issues and problems

This week:

**I never pay much attention to my car tires. What can I do to prevent having a flat tire?**

The best way to deal with a flat is to avoid having one through preventative tire maintenance and routine upkeep.

• The easiest, but most often neglected tire care procedure is to maintain proper tire pressure.

Improperly inflated tires can result in uneven tread wear that leads to shorter tire life and tire failure. Correct tire pressure increases fuel efficiency, reduces road noise and provides a smoother ride.

• Foreign objects penetrating the tire tread or sidewall are common causes of flat tires. Look for nails or other sharp items that may be embedded in the tire tread and may be causing a slow leak.

A foreign object must be removed immediately by a professional since it could come loose while the car is in motion, resulting in a sudden, dangerous loss of tire pressure.

• Drivers should practice changing a flat tire before it occurs. Every car owner's manual indicates the location of the spare tire and the method for replacement. A clean, level driveway in front of your home is a much safer location to learn tire changing than on the side of the highway in the rain.

• Know where to find your spare. Most sedans and coupes will have the spare tire located under the trunk floor.

SUVs often have the tire mounted on the rear tailgate, inside the luggage area or underneath the car by the exhaust system. Many minivans also have the spare under the car or under a side panel.

Many auto manufacturers provide temporary spares or space savers in lieu of full-size tires. Temporary spares are just that — a quick, short-lived remedy for a flat.

Too many times stranded drivers are shocked to discover that the spare tire is also flat, so regular checks of your spare are a good idea.
