

WHEELS

Protect your interior against sun damage

It is important to keep the inside of your vehicle as clean as the outside.

For a thorough cleaning of your car's interior start by vacuuming the interior of the car including the seats, floors (especially between and under the seats), side upholstery and trunk.

Next, clean and dress your interior. For leather interior, use a premium quality cleaner that will remove common stains, dirt, grease and oil without damaging leather fibres, and which will prevent drying and enhance sheen.

Look for a pH balanced lanolin-fortified product that maintains suppleness and elasticity.

FOR LEATHER INTERIOR, USE A PREMIUM QUALITY CLEANER THAT WILL REMOVE COMMON STAINS, DIRT, GREASE AND OIL WITHOUT DAMAGING LEATHER FIBRES.

Avoid using any leather product if the leather is visibly torn or cracked or if it is not colour-fast.

Use a detail brush to clean all vents, cracks and crevices.

You wouldn't go out in the sun without sunscreen, so protect your car's interior from damaging UV rays.

Look for products formulated with UV-X ultraviolet inhibitors that prevent sunlight damage, drying and cracking.
