Families

A monthly publication of the Economist & Sun and Stouffville Tribune
October 1999 edition

Mackenzie Lewis, 9, is flying high in her very timely Y2K bug costume for Halloween. We gave Mackenzie \$25 and asked her to design an original costume without going over budget and she met the challenge, with flying colours. Newmarket's Upper Canada Mall gave Mackenzie a \$20 gift certificate as a prize for her idea. For more details about the costume, please see page 23 inside Families.
